

List of Tables

2.0 Proposed Substances and Selection Criteria for Validation of Endocrine Disruptor Screening Assays

Table 2-1	Numbers of Substances Recommended in the BRDs for the Validation of <i>In Vitro</i> ER and AR Binding and TA Assays	16
Table 2-2A	Distribution of Anticipated Responses of the 78 Recommended Test Substances in <i>In Vitro</i> ER and AR Binding and TA Assays – <i>In Vitro</i> ER-Based Assays.....	17
Table 2-2B	Distribution of Anticipated Responses of the 78 Recommended Test Substances in <i>In Vitro</i> ER and AR Binding and TA Assays – <i>In Vitro</i> AR-Based Assays	18
Table 2-3	Distribution of the 78 Recommended Substances Among Chemical Classes.....	19
Table 2-4	Distribution of the 78 Recommended Substances Among Product Classes.....	21
Table 2-5	Chemical and Product Classes of the 78 Recommended Substances.....	22

3.0 *In Vitro* Estrogen Receptor Binding Assays

Table 3-1	ICCVAM Recommended Substances for Validation of <i>In Vitro</i> ER Binding Assays	36
-----------	---	----

4.0 *In Vitro* Estrogen Receptor Transcriptional Activation Assays

Table 4-1	ICCVAM Recommended Substances for Validation of <i>In Vitro</i> ER TA Agonism Assays That Use Mammalian Cell Reporter Gene (MCRG) Systems.....	52
Table 4-2	ICCVAM Recommended Substances for Validation of <i>In Vitro</i> ER TA Antagonism Assays That Use Mammalian Cell Reporter Gene (MCRG) Systems	60

5.0 *In Vitro* Androgen Receptor Binding Assays

Table 5-1	ICCVAM Recommended Substances for Validation of <i>In Vitro</i> AR Binding Assays	78
-----------	---	----

6.0 *In Vitro* Androgen Receptor Transcriptional Activation Assays

Table 6-1	ICCVAM Recommended Substances for Validation of <i>In Vitro</i> AR TA Agonism Assays That Use Mammalian Cell Reporter Gene (MCRG) Systems.....	96
Table 6-2	ICCVAM Recommended Substances for Validation of <i>In Vitro</i> AR TA Antagonism Assays That Use Mammalian Cell Reporter Gene (MCRG) Systems	104
