

We Face A Dropout Catastrophe

- One student in America drops out every 26 seconds; that's 1.1 million per year
- Roughly 30% of all students fail to graduate
- Only 1/3 of those who graduate are ready for college
- Jobs that require post-secondary education will make up more than 2/3 of new jobs

Hispanics And The Dropout Rate

• More than 40% of Hispanic students fail to graduate

Pew Hispanic Center

Hispanics And The Dropout Rate

Five states graduate < 40%

(GA, AL, TN, NC, NV)

Six of the 50 largest school districts graduate < 40%

(Cleveland, OH; DeKalb Co., GA; Gwinnett Co., GA; Cobb Co., GA; Clark Co., NV; Dallas, TX)

Pew Hispanic Center

Implications For National Policy

- U.S. Hispanics increased by 97% 5x the national growth rate
- Since 1990, Hispanics accounted for 60% of the increase in US public school enrollment

Reasons Why Hispanics Drop Out

- Need to work
- Never enrolled in U.S. schools
- Language obstacles among immigrants

Pew Hispanic Center

Factors in Hispanic Dropouts

- Concentrations in larger high schools
- Higher student-teacher ratios
- Labor market pull in booming areas

The Hispanic Dropout Crisis: Challenges (and opportunities)

- 40% of Hispanic students are foreign-born
- Poverty rates are 2-3x that of white students
- Many Hispanic dropouts have never enrolled in US schools
- 18% speak English with difficulty
- Little improvement in dropout rates or test scores by the 3rd generation
- 66% of Latinos own video game consoles
- Hispanics are 44% more likely to be influenced by Internet
- 57% live with both parents

High School Graduation Is A Strong Predictor Of Adult Success

Students who fail to graduate are:

- Twice as likely to continue the cycle of poverty
- Three times as likely to be unemployed
- Eight times as likely to go to prison

Return on Investment

A **one**-percentage point increase in high school graduation rates would:

- Yield \$1.8 billion in social benefits
 (Reduced costs for healthcare, welfare & criminal justice)
- Reduce number of crimes nationwide by \$94,000

Return On Investment

If we raise Hispanic and African American graduation rates to those of white students by 2020, the potential increase in personal income would add \$310 billion to the U.S. economy.

Five Promises and The Dropout Crisis

Children need five key developmental resources to succeed in school and life:

- Caring adults
- Safe places
- Healthy start
- Effective education
- Opportunities to help others

Research: More Promises = Greater Success

Children who receive at least Four of the Five Promises are:

- Twice as likely to get A's in school
- Twice as likely to avoid violence
- 40% more likely to volunteer
- More socially competent

Every Child, Every Promise: Turning Failure into Action

Five Promises Level The Playing Field

Having at least Four of the Five Promises removes traditional disparities based on race and family income.

Every Child, Every Promise: Turning Failure into Action

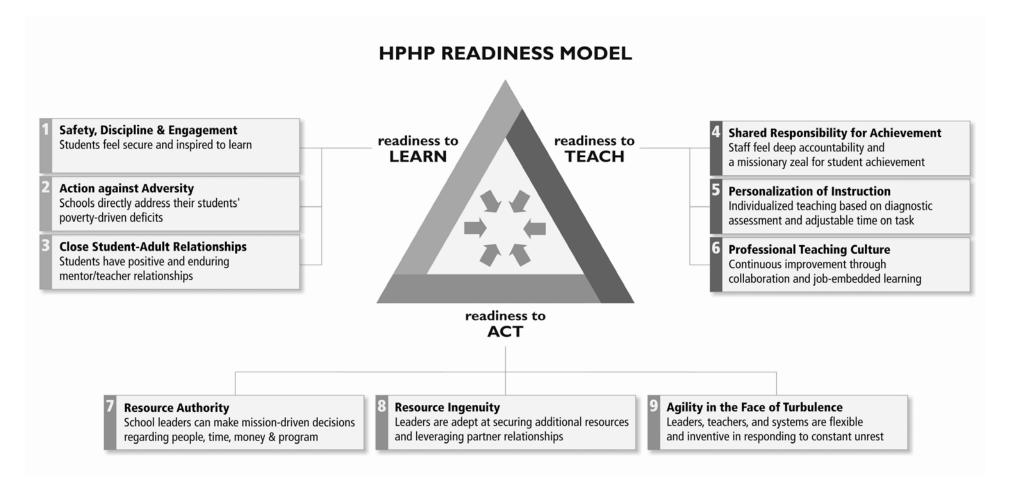

'Promise Poverty' in America

Where we are now

- More than 2/3 of our young people (34 million) lack enough Promises to be confident of success
- More than 20% (10 million) have Zero-One Promises and a are on course for failure

Every Child, Every Promise: Turning Failure into Action

The Readiness Model

Focusing On All Three Sides Of The Issue

- Readiness to teach
- Readiness to learn
- Community readiness to mobilize & hold all parties accountable

This Is A Surmountable Problem!

- 50% of dropouts come from 15% of schools
- "Super-resourcing" the areas of greatest need

About the Alliance

- Founded by Presidents Ford, Carter, Reagan, Bush and Clinton to call America to service on behalf of children
- Alliance of 200+ partner organizations across all sectors: business, philanthropy, faith-based, government, non-profit
- Non-partisan credibility
- Advocacy through First Focus affiliate
- Uniquely positioned to reach across sectors and ideologies
- Proven capacity to convene, coordinate and catalyze

Why Graduation Rates Are The 'Bellwether' Outcome

Hourly income

Dropouts: \$8.50

HS grads: \$13

College grads: \$25

Annual income

Dropouts: \$19K

HS grads: \$27K

Associate degree: \$36K

College grads: \$52K

GEDs do not decrease disparity

Our Strategic Plan: More Promises Kept = More Graduates

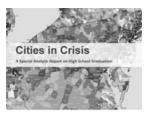

- Dropout Prevention Initiative: Rally the nation to address the most glaring symptom of broken Promises.
- Bring more Promises to at least 15 million more young people in the next five years.
- Measure results, use data and hold ourselves and our partners accountable.

- lowa: Spurred 16 community action plans to reduce minority dropouts
- Tulsa: Raised community awareness; developing action plan

Key Summit Elements

The Alliance is requiring certain critical components in all dropout summits:

- 1. Demonstrated leadership from multiple sectors
- 2. Building upon existing local education reform efforts.
- 3. Youth voice and leadership.
- 4. A focus on policy implications and opportunities.
- 5. Get deep into the data: Who is dropping out, when and why.
- 6. Development of post-summit action plan to strengthen schools and support students.

Post Action Plan Components

- Transforming schools
- Supporting students
- Developing effective policies
- Employing data systems

Summit Support

- Seed funding for all 50 states (\$25K) and 50 targeted cities (\$10K)
- Connections with Alliance partners, nationally and locally
- **Technical assistance** (planning, leadership outreach, policy, youth engagement, etc.)
- Web-based resources (data, template agendas, speakers, best practices, etc.)
- Post-Summit action planning support
- National evaluation with Duke University's Center for Child and Family Policy
