Mr. Alexander Cristofaro (MC-1804A)  
Small Business Advocacy Chair  
U.S. Environmental Protection Agency  
1200 Pennsylvania Ave., N.W.  
Washington, DC 20460

**Subject: SBAR Panel for Non-Road Spark-Ignition Engines/Equipment**

Dear Mr. Cristofaro:

I have received your letter of May 24, 2006 regarding the Small Business Advocacy Review Panel (Panel) for the proposed Clean Air Act Control of Emissions from Nonroad Spark-Ignition Engines and Equipment (NRSI). We received the formal notification electronically on May 26, 2006.

Advocacy generally concurs with the preliminary list of Small Entity Representatives (SERs) that EPA has identified for the Panel process. Advocacy believes that the following additional SERs also need to be included in this Panel:

James McNew  
Outdoor Power Equipment Institute  
(703) 549-7601  
[jmcnew@opei.org](mailto:jmcnew@opei.org)

George Kraemer  
Kracor  
(414) 355-6335  
[gkraemer@kracor.com](mailto:gkraemer@kracor.com)

Richard Rowe  
Indmar Products  
(901) 353-9930  
[drowe@indmar.com](mailto:drowe@indmar.com)

Robert Porter  
INCA Molded Products  
(615) 350-7290  
[rporter@incaproducts.com](mailto:rporter@incaproducts.com)

Bill Shields  
Trident Rubber Inc.  
(724) 745-9311  
[wfshields@tridentmarine.com](mailto:wfshields@tridentmarine.com)

We understand that EPA would like to have a pre-Panel meeting with the SERs in June 2006 and convene the Panel the following month. We look forward to working with you through this process.

Sincerely,

/s/ \_\_\_\_\_

Thomas M. Sullivan  
Chief Counsel for Advocacy
