

## INDEX

# INDEX

## A

acronym list, 7  
adolescents, mental health needs for, 68, 69  
Administration on Aging, 27  
Administration for Children and Families, 27  
Agency for Toxic Substances and Disease Registry, 26  
agricultural inspections, 31  
airborne threats, 33, 35  
air monitoring systems, 35  
alcohol use, by first responders, prevention of, 54  
American Red Cross, 20, 25, 26, 68  
Animal and Plant Health Inspection Service (APHIS), 31, 32  
anthrax, *See appendix B*; 35, 39, 45, 48  
    legal issues related to, 49  
    vaccine, 16  
Applied Public Health teams, 18  
Army Corps of Engineers, 34  
Association of State and Territorial Health Officials, 14, 32, 50  
avian influenza, *See appendix E*  
    and bioterrorism threat, 10  
    exercise scenario, 63  
    preparedness and response, 21

## B

beef supply, contamination of, 30, 31  
behavioral reactions, to emergencies, 66, 67  
biological agents, *See appendix B*, *see also specific agents, including:*  
    anthrax  
    botulism  
    plague  
    smallpox  
    tularemia  
    viral hemorrhagic fever  
Biological Incident Annex, 25, 26  
Bio-LRN network, 12  
biosafety level (BSL) classification system, 13  
BioSense, 8, 9  
biosurveillance programs, *See surveillance systems*  
bioterror agents, *See also specific agents*  
    airborne, monitoring for, 35  
    disease outbreaks caused by, characteristics of, 10; *See also outbreaks, characteristics of*, 10; *See also outbreaks, characteristics of*, 10  
    hand-held testing for, 11  
    laboratory testing for, 10, 11, 43

## bioterror agents *continued*

    regulation of, 13  
    vaccination against, 16  
bioterrorism  
    federal agency response to, 26  
    and first responder safety and health, 52  
    legal preparedness for, 48  
    National Governors Association, issue brief on the law and, 50  
    news coverage of, 45  
    preparedness exercises, 62, 63  
    public reaction to, 38–40  
BioWatch, 8, 33, 35  
bird flu, *See avian influenza, see also appendix E*  
blister agents, *See appendix C*  
blood agents, *See appendix C*  
border states  
    disease surveillance program at, 9  
    food safety surveillance at, 31  
botulism, *See appendix B*  
bovine spongiform encephalopathy (BSE), 30, 31  
buddy care, in occupational health, 55  
building environments, airborne threats in, 35  
burnout, professional, avoidance of, 52

## C

Canada-U.S. border, disease surveillance program at, 9  
care of leaders and responders, 51–57  
Center for Law and the Public's Health, 49, 50  
Center for Mental Health Services, 69  
Centers for Disease Control and Prevention (CDC), 5, 27, 33  
    and airborne threats, 35  
    and chemical incidents, 26  
    disease detection program, 8, 9  
    and disease outbreaks, 25  
    Division of Global Migration and Quarantine, 18, 49  
    Division of Strategic National Stockpile (DSNS), 15, 16  
    and foodborne illnesses, 30–32  
    Public Health Law Program, 50  
    response to public health threats, 12, 13  
    smallpox scenario exercise, 62  
    and water emergencies, 34  
Centers for Medicare and Medicaid Services (CMS), 27  
chemical agents, *See appendix C*, *see also specific agents, including:*

## chemical agents *continued*

    blister agents  
    blood agents  
    choking agents  
    nerve agents  
chemical incidents, federal agency response to, 26  
Chem-LRN network, 12  
children, mental health needs for, 68, 69  
chlorine gas supplies, at water treatment facilities, 34  
choking agents, *See appendix C*  
Cities Readiness Initiative, 16  
Citizen Corps, 20  
Clean Water Act, 34  
cognitive reactions, to emergencies, 66, 67  
Commissioned Corps Readiness Force, 20  
Commissioned Officer Corps (Public Health Service), 18  
communicable disease, *See disease outbreaks; infection control*  
communication  
    between first responders, 54  
    with mass media, 40  
    with public, *See public communication*  
community reactions, understanding, 66–68  
community recovery, after public health emergency, 65–69  
contact tracing, 9  
    for smallpox vaccination, 17  
coping mechanisms  
    during emergencies, 39, 40  
    of first responders, 52–56  
    of public officials, 51–57  
credibility, and public communication, 41, 43  
crisis communication, *See public communication during emergencies; mass media*  
Crisis Counseling Assistance and Training Program, 24  
crisis counseling services, 24, 69  
crisis news, and “language of live,” 44, 45  
Customs and Border Protection, 31

## D

debriefings, group, 56  
decision-making dilemmas, and public communication, 43  
denial, during emergencies, 39–40  
Department of Agriculture (USDA), 31, 32  
Department of Defense (DoD), 13, 20, 26  
Department of Energy (DOE), 26

Department of Health and Human Services (HHS), *See also specific agencies, programs, and services*; 2, 6, 33  
and airborne threats, 35  
coordination with other federal agencies, 23, 25, 26  
exercise planning guidelines, 60, 63  
funding provided by, 25  
influenza scenario exercise, 63  
key agencies of, 27  
legal guidance, 50  
media guide, 44  
Operations Center, 25  
preparedness and response program, 24–27  
stress reduction tips, 57  
and water emergencies, 34

Department of Homeland Security (DHS), 2, 15, 23–26, 29, 33  
preparedness exercises, 63

Department of Veterans Affairs, 13

desensitization, by first responders, 55

Disaster Medical Assistance Teams, 19

Disaster Mental Health Institute, 56

Disaster Mortuary Operational Response Teams, 19

disaster supplies, *See appendix F*  
disaster supplies kits, 53

disease outbreaks, *See also specific disease*  
airborne, 35  
caused by bioterrorism, characteristics of, 10  
control of, *See infection control*  
federal agency response to, 25, 26  
foodborne, 30–32  
mapping spread of, 9  
public reaction to, 38–40  
surveillance of, 8, 9, 25, 26  
waterborne, 34

disease reporting systems, 8, 9

dispensing site, functioning of, 16

distress response  
professional, 52
