# Annualization Worksheet 

## General Information on Annualizing

If your income fluctuates or is seasonal, you may be able to lower the amount of one or more required estimated tax installments by annualizing your income. To see if you can pay less for any period, first complete the estimated worksheet, Form ESW, then complete the annualized estimated worksheet (Form ESA). Complete one column before continuing to the next. This worksheet annualizes your tax at the end of each period based on a reasonable estimate of your income and deductions from the beginning of the tax year through the end of each period. If you use the annualized income worksheet for any payment due date, you must use it for all subsequent payment due dates.

If you use the annualized income installment method, you must file Form ESA (Estimated Annualized Worksheet). Attach Form ESA to your return when you file your 1999 income tax return.
