COPY,**

Check Report Below:

Fruit & Vineyard Inventory

An accounting of fruit acreage, trees, and vines by county. Includes apple acreage by tree age, variety, and planting density. Data are published for grape acreage by variety, by county. This survey is conducted every five years and continues a data series established in 1957.

Equine Survey

Detailed information on equine numbers by breed, use, location, and type of operation including acreage used for equine purposes and employment in the industry. Includes data on horse values, investment in capital items, and expenses associated with horse ownership. Publications are available for 2005, 2000, 1988, and 1978.

New York is an Agricultural State

Summary brochure of primary commodities in which New York ranks nationally.

2002 Census of Agriculture

Publication

CD-Rom

The 2002 Census of Agriculture is the most comprehensive source of statistics portraying our Nation's agriculture. It is the only source of uniform agricultural data for every county in the United States.
