TREASURY OFFERS 2-YEAR NOTES

The Treasury will auction \$27,000 million of 2-year notes to refund \$20,679 million of publicly held notes maturing December 31, 2002, and to raise new cash of approximately \$6,321 million.

In addition to the public holdings, Federal Reserve Banks hold \$6,195 million of the maturing notes for their own accounts, which may be refunded by issuing an additional amount of the new security.

Up to \$1,000 million in noncompetitive bids from Foreign and International Monetary Authority (FIMA) accounts bidding through the Federal Reserve Bank of New York will be included within the offering amount of the auction. These noncompetitive bids will have a limit of \$100 million per account and will be accepted in the order of smallest to largest, up to the aggregate award limit of \$1,000 million.

Note: The closing times for receipt of noncompetitive and competitive tenders will be at 11:00 a.m. and 11:30 a.m. eastern standard time, respectively.

TreasuryDirect customers requested that we reinvest their maturing holdings of approximately \$521 million into the 2-year note.

The auction will be conducted in the single-price auction format. All competitive and noncompetitive awards will be at the highest yield of accepted competitive tenders. The allocation percentage applied to bids awarded at the highest yield will be rounded up to the next hundredth of a whole percentage point, e.g., 17.13%.

The notes being offered today are eligible for the STRIPS program.

The 2-year notes being announced today will mature on Friday, December 31, 2004. Federal Reserve Banks intend to be open and make payments on that date.

This offering of Treasury securities is governed by the terms and conditions set forth in the Uniform Offering Circular for the Sale and Issue of Marketable Book-Entry Treasury Bills, Notes, and Bonds (31 CFR Part 356, as amended).

Details about the new security are given in the attached offering highlights.
