TREASURY OFFERS 19-YEAR 6-MONTH 2-3/8% TREASURY INFLATION-PROTECTED SECURITIES  
(TIPS)

The Treasury will auction \$6,000 million of 19-year 6-month 2-3/8% Treasury inflation-protected securities to be issued July 29, 2005.

Up to \$1,000 million in noncompetitive bids from Foreign and International Monetary Authority (FIMA) accounts bidding through the Federal Reserve Bank of New York will be included within the offering amount of the auction. These noncompetitive bids will have a limit of \$100 million per account and will be accepted in the order of smallest to largest, up to the aggregate award limit of \$1,000 million.

The auction will be conducted in the single-price auction format. All competitive and noncompetitive awards will be at the highest yield of accepted competitive tenders. The allocation percentage applied to bids awarded at the highest yield will be rounded up to the next hundredth of a whole percentage point, e.g., 17.13%.

The securities being offered today are eligible for the STRIPS program.

This offering of Treasury securities is governed by the terms and conditions set forth in the Uniform Offering Circular for the Sale and Issue of Marketable Book-Entry Treasury Bills, Notes, and Bonds (31 CFR Part 356, as amended).

For original issue discount (OID), IRS regulations permit reopenings of Treasury inflation-protected securities without regard to OID rules, provided that the reopenings occur not more than one year after the original securities were first issued to the public. Therefore, the OID limit does not apply to this auction.

Details about the security are given in the attached offering highlights.
