APPENDIX

AAUW	American Association of University Women
CENS	Center for Embedded Networked Sensing
CS-CAMP	Computer Science Computing and Mentoring Partnership
EEES	Engineering Equity Extension Service
GCG	Girls Creating Games
GO-GIRL	Gaining Options: Girls Investigate Real Life
HBCU	Historically Black Colleges and Universities
ISU	Illinois State University
IT	Information Technology
ITS	Intelligent Tutoring System
L/L	Living/Learning Programs
MRUC	Midwestern Rural–Urban Collaborative
NGCP	National Girls Collaborative Project
NSF	National Science Foundation
NSLLP	National Study of Living–Learning Programs
NSP	National Science Partnership
NWGC	Northwest Girls Collaborative
OWWSTE	Opportunities for Wisconsin Women in Science, Technology, and Engineering
PALS	Pedagogical Agents as Learning Companions
PSCTLT	Puget Sound Center for Teaching, Learning, and Technology
RAPUNSEL	Real–time Applied Programming for Underrepresented Students
SCETV	South Carolina Educational Television Network
SCGCP	Southcentral Girls Collaborative Project
SGA	Science, Gender, and After School programs
SISDO	Sisters in Science Dissemination and Outreach Project
SISERP	Science Equity Reform Project
SOP	Science on Patrol
STEM	Science, Technology, Engineering, and Math
UCLA	University of California–Los Angeles
YWCA	Young Women's Christian Association

INDEX

A

Academic administrators, as advocates, 58
Achievement
in algebra program, 32
in computer clubhouse, 16–17
in computer programming, 16
in engineering cultures, 41–42
focused instruction in, 32
in Girls in Science program, 23
pedagogical agents in, 5
in "Powerful Signals" series, 4
program effectiveness in, 54
research experiences and, 39
in SciGirls initiative, 25
in TOYchallenge, 6
Action plan
for after-school program development, 51
in engineering cultures study, 41–42
of extension services, 55–56
of information technology extension service, 56
Activity-based programs
in algebra, 32
in computer clubhouse, 16–17
in computer gaming, 13
in computer programming, 16
in CS-CAMP, 12
in forensic science, 22–23
in mathematical language use, 35
pedagogical agents in, 5
robotics competitions as, 12–13
in role-playing games, 24–25
in science literacy, 29
in science partnership kits, 55
in SciGirls initiative, 25
in social science approach, 28
Advancement. See also Career awareness and choice
academic recruitment and, 58
baccalaureate degree and, 43–44
in chemical industry, 48
computer clubhouse and, 16–17
doctoral degree and, 47
engineering programs and, 40, 41–42
gender's role in, 46
Girls in Science and, 23
research experience and, 39
Affirmative action policies, 47
African Americans
in computer clubhouse, 16–17
in computing science, 41
pedagogical agents and, 5
in physics field, 43
After-school programs
best practices in, 51
collaborative networks for, 52
in computer clubhouse, 16–17
in computer gaming, 13
in computer science skills, 12
in forensic science, 22–23
in Girls in Science, 23
outreach project on, 54
in robotics competitions, 12–13
in Sally Ride Science, 2
science partnership kits in, 55
in SciGirls initiative, 25
in software design, 15
in Tech Team, 14
in TOYchallenge, 6
underrepresentation and, 22
Aiming for Algebra program, 32
Algebra program, 32
All-year programs
in computer clubhouse, 16–17
in computer programming, 16
extension services and, 55–56
in forensic science, 22–23
in gender sensitivity, 53
in Girls in Science, 23
in SciGirl initiative, 25
in TOYchallenge, 6
American Association of University Women (AAUW), 18, 54
Animations
in computer programming project, 16
pedagogical agents as, 5
virtual peers as, 6–7
Arizona, barriers and supports program in, 8
Arizona State University, 8
Arkansas, in collaborative network, 52
Asian Americans, in computer clubhouse, 16–17
Assessment and assessment tools. See also Evaluations
of engineering cultures, 41–42
of extension services, 55–56
of freshmen attitudes, 38
in gender equity study, 44
of informal programming, 32
in information technology program study, 56
of measurement ability, 34–35
pedagogical agents as, 5
in program effectiveness study, 54
of research experiences, 39
in student attitude evaluation, 7
in textbook learning study, 26
virtual peers as, 6–7
Attitudes
of college freshmen, 38
in engineering equity extension service, 56
measurement of, 7
in problem-solving approaches, 30
social context influence on, 8
Automotive operations program, 24

B

Barrier identification
in chemical industry, 48
in computer clubhouse program, 16–17
in computer gaming program, 13
in doctoral programs, 47

in engineering cultures, 41–42
in gender sensitivity training, 53
in intervention selection, 8
in outreach project, 54
pedagogical agents and, 5
in physics field, 43
in Sally Ride Science, 2
in STEM retention, 47
study of, 8
teamwork skills and, 2–3
in Tech Savvy program, 18
in textbook learning study, 26
in TOYchallenge, 6
in underrepresentation program, 22
virtual peers and, 6–7
"Best of our Knowledge, The" radio program, 4
Best practices
in after-school programs, 51
in algebra program, 32
in chemical industry, 48
in engineering cultures, 41–42
in engineering programs, 40
extension services in promoting, 55–56
in information technology programs, 56
in living/learning programs, 39–40
in online teacher development courses, 51
outreach project on, 54
in research experiences, 39
Bilingual projects, 2
Biographies
in "Powerful Signals" series, 4
in "Think Again...Girls Can," 5
in TOYchallenge, 6
on underrepresentation, 22
Bioinformatics
collaborative approach to, 33
in "Think Again...Girls Can," 5
Biology, social studies in, 42
Books, vs. experiential approach, 26
Botball program, 12–13
Boys and Girls Clubs
in computer clubhouse, 16–17
in SciGirls initiative, 25
Briarcliffe College, 5
Bringing Young Girls into Science with Books and Literacy program, 26
Broadcasting. See also Television
in Tech Team, 14

C

California
computer gaming in, 13
gender segregation study in, 3
problem-solving study in, 30
research experience model in, 39
Sally Ride Science in, 2
TOYchallenge in, 6
Career awareness and choice. See also Advancement; Recruitment
through academic development, 46
in algebra program, 32
in chemical industry, 48
in computer clubhouse, 16–17
conference on, 50
in CS-CAMP, 12
through degree preparation, 43–44
doctoral programs in, 47
freshmen attitudes in, 38
gender equity and, 44
in Girls in Science program, 23
in information technology video, 17–18
in "Powerful Signals" series, 4
in science literacy program, 29
in SciGirls initiative, 25
in STEM retention, 47
in Tech Savvy program, 18
in Tech Team program, 14
in "Think Again...Girls Can," 5
in TOYchallenge, 6
Career paths
in chemical industry, 48
gender in, 46
retention in, 47
Carnegie Mellon University, 24
Cartoons, in computer programming project, 16
"Case of Missing Human Potential" video, 22
CDs
on gender sensitivity training, 53
in "Powerful Signals" series, 4
Center for Embedded Networked Sensing (CENS), 39
Center for Women and Information Technology, 2
Center of Science and Industry- Columbus, 2
Chemical industry workforce, 48
Chemistry
discrimination in field of, 46
problem-solving skills in, 30
Click! the Urban Adventure, 25
Clubhouse Village, 17
Clubs
in algebra program, 32
science partnership kits and, 55
in Tech Team, 14
Co-curricular activities
in algebra program, 32
in computer programming, 16
in forensic science program, 22–23
in living/learning program, 39–40
pedagogical agents in, 5
in research experiences, 39
on resource availability, 53
in science literacy program, 29
in textbook learning, 26
in virtual peer program, 6–7
Cohort Study of STEM Career Outcomes, 47
Collaboration
in after-school program development, 51
in algebra program, 32
in computer clubhouse, 16–17

in computer programming, 16
efficacy of, 2–3
in engineering culture, 41–42
in forensic science program, 22–23
in living/learning program, 39–40
in resource availability, 53
in role-playing games, 24–25
in science literacy program, 29
in SciGirls initiative, 25
virtual peers in, 6–7
Collaborative networks, 52, 54
College administrators, as advocates, 58
College students
attitudes on gender roles of, 38
in community college, 37
as community college transfers, 43–44
in computing sciences, 41
engineering programs for, 40, 41–42
living/learning programs for, 39–40
research experience for, 39
whole community approach and, 38
at women's colleges, 43
Colorado
information technology extension service in, 56
physics department study in, 43
Columbia University, 27
Communication skills
development project on, 57
in Tech Team program, 14
Community-based programs
in algebra, 32
in computer clubhouse, 16–17
in forensic science program, 22–23
in Girls in Science program, 23
in information technology video, 17–18
in role-playing games, 24–25
Sally Ride Science as, 2
in SciGirls initiative, 25
service and experiential, 50
in TOYchallenge, 6
Community college projects
in automotive operation, 24
partnerships in, 24
on transition to four-year colleges, 43–44
Community of practice in science, 51
Community service, for STEM teachers, 50
Computational fluency, 32
Computer-based social models, 5
Computer-based tutorials. See also Online tutorials
in collaborative approach, 33
in computational fluency, 32
focused instruction in, 32
by intelligent tutoring system, 33
by pedagogical agents, 5
on problem-solving, 30
