

The proposed action will not significantly increase the probability or consequences of accidents. No changes are being made in the types of effluents that may be released off-site. There is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action. The licensee will continue to use the designated and approved areas of its property for disposal. Determination of the radiological dose impact of the new material to be disposed has been made based on the same dose assessment models and pathway assumptions used in previously-approved applications for Vermont Yankee. The NRC staff's review of the proposed action concluded that the bounding dose conditions for the previously-approved materials will not be exceeded. The maximum dose from the radionuclides in the material was determined to be less than 1 millirem per year to the maximally exposed individual and less than 5 millirem per year to an inadvertent intruder.

With regard to potential non-radiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). The environmental impacts of the proposed action and the alternative action are similar. If the proposed action is denied, the licensee may be required to ship the material to an off-site low-level radioactive waste disposal facility. The costs associated with off-site disposal greatly exceed the cost of on-site disposal with no significant benefit to the environment.

Alternative Use of Resources

The action does not involve the use of any different resources than those previously considered in the Final Environmental Statement for Vermont Yankee.

Agencies and Persons Consulted

On April 25, 2005, the staff consulted with the Vermont State official, William

Sherman, of the Department of Public Service, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated October 4, 2004, as supplemented by letter dated January 17, 2005.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly-available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 12th day of July 2005.

For the Nuclear Regulatory Commission.

Richard B. Ennis,

Senior Project Manager, Section 2, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-3103]

Public Meeting To Discuss the Safety Evaluation Report and Final Environmental Impact Statement for the Proposed National Enrichment Facility in Lea County, NM

AGENCY: United States Nuclear Regulatory Commission.

ACTION: Notice of public meeting in Eunice, New Mexico.

SUMMARY: The Nuclear Regulatory Commission (NRC) will be holding a public meeting in the Eunice Community Center, Eunice, New Mexico, to discuss the Safety Evaluation

Report (SER), NUREG-1827, and Final Environmental Impact Statement (FEIS), NUREG-1790, for Louisiana Energy Services' (LES') proposed National Enrichment Facility (NEF) in Lea County, New Mexico. The SER and FEIS document the NRC staff's findings during the safety and environmental review for the proposed NEF. Both documents are available on the NRC Web site at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/>.

Purpose: This meeting will provide an opportunity to hear a summary of, and to ask questions about, the staff's review of LES' application presented in the SER and FEIS.

Time/Date: The public meeting will be held on August 2, 2005, from 7 p.m. to 9 p.m.

Place: Eunice Community Center, 1115 Avenue I, Eunice, New Mexico.

FOR FURTHER INFORMATION CONTACT: Timothy C. Johnson, Mail Stop: T-8F42, Special Projects Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone: (301) 415-7299, and E-mail: tcj@nrc.gov.

Dated at Rockville, Maryland, this 12 day of July, 2005.

For the Nuclear Regulatory Commission.

James W. Clifford,

Acting Chief, Special Projects Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards.

[FR Doc. E5-3834 Filed 7-18-05; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Sunshine Act; Meetings

DATE: Weeks of July 18, 25, August 1, 8, 15, 22, 2005.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of July 18, 2005

11 a.m.—Affirmation Session (Public Meeting) (Tentative).

a. Private Fuel Storage (Independent Spend Fuel Storage Installation) Docket No. 72-22-ISFSI; unpublished Board order (April 25, 2005) (Tentative).

b. Dominion Nuclear Connecticut, Inc. (Millstone Nuclear Power Station, Units 2 and 3), Docket Nos. 50-336-LR & 50-423-LR

(Tentative).

Week of July 25, 2005—Tentative

Thursday, July 28, 2005:
1:30 p.m.—Discussion of Security Issues (Closed-Ex. 1).

Week of August 1, 2005—Tentative

There are no meetings scheduled for the week of August 1, 2005.

Week of August 8, 2005—Tentative

There are no meetings scheduled for the week of August 8, 2005.

Week of August 15, 2005—Tentative

Tuesday, August 16, 2005:
10 a.m.—Meeting with the Organization of Agreement States (OAS) and the Conference of Radiation Control Program Directors (CRCPD) (Public Meeting) (Contact: Shawn Smith, (301) 415-2620).
This meeting will be webcast live at Web address—<http://www.nrc.gov>.
1 p.m.—Discussion of Security Issues (Closed-Ex. 1).

Week of August 22, 2005—Tentative

There are no meetings scheduled for the week of August 22, 2005.

The schedule for Commission meetings is subject to change on short notice. To verify the status of meetings call (recording)—(301) 415-1292. Contact person for more information: David Gamberoni, (301) 415-1651.

BILLING CODE 7590-01-M

NUCLEAR REGULATORY COMMISSION

Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations

I. Background

Pursuant to section 189a.(2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this regular biweekly notice. The Act requires the Commission publish notice of any amendments issued, or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from June 24 to July 7, 2005. The last biweekly notice was published on July 5, 2005 (70 FR 38712).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed

determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination. Within 60 days after the date of publication of this notice, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene.

Normally, the Commission will not issue the amendment until the expiration of 60 days after the date of publication of this notice. The Commission may issue the license amendment before expiration of the 60-day period provided that its final determination is that the amendment involves no significant hazards consideration. In addition, the Commission may issue the amendment prior to the expiration of the 30-day comment period should circumstances change during the 30-day comment period such that failure to act in a timely way would result, for example in derating or shutdown of the facility. Should the Commission take action prior to the expiration of either the comment period or the notice period, it will publish in the **Federal Register** a notice of issuance. Should the Commission make a final No Significant Hazards Consideration Determination, any hearing will take place after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room 6D22, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. Federal workdays. Copies of written comments received may be examined at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area O1F21, 11555 Rockville Pike (first floor), Rockville, Maryland. The filing of requests for a hearing and petitions for leave to intervene is discussed below.

Within 60 days after the date of publication of this notice, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and
