

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-8]

Calvert Cliffs Nuclear Power Plant, Inc.; Independent Spent Fuel Storage Installation; Notice of Docketing of Materials License SNM-2505; Amendment Application**AGENCY:** Nuclear Regulatory Commission.**ACTION:** License amendment.**FOR FURTHER INFORMATION CONTACT:**

Joseph M. Sebrosky, Senior Project Manager, Spent Fuel Project Office, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-1132; fax number: (301) 415-1179; e-mail: jms3@nrc.gov.

SUPPLEMENTARY INFORMATION: By letter dated May 16, 2005, Calvert Cliffs Nuclear Power Plant, Inc., (CCNPP or licensee) submitted an application to the U.S. Nuclear Regulatory Commission (NRC or the Commission), in accordance with Title 10 of the Code of Federal Regulations (10 CFR) 72.56, requesting the amendment of the independent spent fuel storage installation (ISFSI) license for the ISFSI located in Calvert County, Maryland. CCNPP proposes to incorporate changes to the updated safety analysis report to alter the design basis limit for the ISFSI dry shielded canister internal pressure from 50 psig to 100 psig.

This application was docketed under 10 CFR Part 72; the ISFSI Docket No. is 72-8 and will remain the same for this action. Upon approval of the Commission, the CCNPP ISFSI license, SNM-2505, would be amended to allow this action.

The Commission may issue either a notice of hearing or a notice of proposed action and opportunity for hearing in accordance with 10 CFR 72.46(b)(1) regarding the proposed amendment or, if a determination is made that the proposed amendment does not present a genuine issue as to whether public health and safety will be significantly affected, take immediate action on the proposed amendment in accordance with 10 CFR 72.46(b)(2) and provide notice of the action taken and an opportunity for interested persons to request a hearing on whether the action should be rescinded or modified.

For further details with respect to this amendment, see the application dated May 16, 2005, which is publically available in the records component of NRC's Agencywide Documents Access and Management System (ADAMS). The

NRC maintains ADAMS, which provides text and image files of NRC's public documents. These documents may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 7th day of June, 2005.

For the Nuclear Regulatory Commission.

Joseph M. Sebrosky,

Senior Project Manager, Spent Fuel Project Office, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P**NUCLEAR REGULATORY COMMISSION**

[Docket No. 50-271; License No. DPR-28]

Entergy Nuclear Vermont Yankee, LLC and Entergy Nuclear Operations, Inc.; Receipt of Request for Action Under 10 CFR 2.206

Notice is hereby given that by petition dated May 3, 2005, the New England Coalition (NEC or the petitioner) has requested that the Nuclear Regulatory Commission (NRC or the Commission) take action with regard to the Vermont Yankee Nuclear Power Station (Vermont Yankee). The NEC petition requested that the NRC promptly restore reasonable assurance of adequate protection of public health and safety with regard to the fire barriers in electrical cable protection systems at Vermont Yankee, or otherwise to order a derate of Vermont Yankee until such time as the operability of the fire barriers can be assured. Specifically, the petition requested that the Commission take the following actions: (1) Require Entergy Nuclear Vermont Yankee (ENVY) to promptly conduct a review at Vermont Yankee to determine the extent of condition, including a full inventory of the type, amount, application, and placement of Hemyc, and an assessment of the safety significance of each application; (2) require ENVY to promptly provide justification for operation in nonconformance with 10 CFR Part 50, Appendix R; and (3) upon finding that Vermont Yankee is operating in an unanalyzed condition and/or that assurance of public health and safety is degraded, promptly order a power reduction (derate) of Vermont

Yankee until such time as it can be demonstrated that ENVY is operating in conformance with 10 CFR Part 50, Appendix R, and all other applicable regulations.

The request is being treated pursuant to Title 10 of the Code of Federal Regulations (10 CFR), Section 2.206, of the Commission's regulations. The request has been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by 10 CFR 2.206, appropriate action will be taken on this petition within a reasonable time. Mr. Raymond Shadis, in his capacity as the petitioner's Staff Technical Advisor, participated in a telephone conference call with the NRC's Petition Review Board (PRB) on May 17, 2005, to discuss the petition. The results of that discussion were considered in the PRB's determination regarding the petitioner's request for action and in establishing the schedule for the review of the petition. During the May 17, 2005, PRB conference call, the petitioner requested that the licensee review fire barriers beyond the Hemyc electric raceway fire barrier system. This request will not be accepted under the 2.206 process because the petitioner did not provide adequate information to justify expanding the scope of the review.

A copy of the petition and the transcript of the telephone conference call are available for inspection at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland, and from the NRC's Agencywide Documents Access and Management System (ADAMS), Public Electronic Reading Room, on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Nos. ML051370182 and ML051610042). Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 15th day of June 2005.

For the Nuclear Regulatory Commission.

R.W. Borchardt,

Acting Director, Office of Nuclear Reactor Regulation.
