## NUCLEAR REGULATORY COMMISSION

### State of Wisconsin: Discontinuance of Certain Commission Regulatory Authority Within the State

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of agreement with the State of Wisconsin.

**SUMMARY:** On July 1, 2003, Dr. Nils J. Diaz, Chairman of the U.S. Nuclear Regulatory Commission (NRC) signed an Agreement and on July 3, 2003, Governor Jim Doyle of the State of Wisconsin signed the Agreement as authorized by Section 274b of the Atomic Energy Act, as amended (Act). The Agreement provides for the Commission to discontinue its regulatory authority over source, byproduct materials as defined in Section 11e.(1) of the Act and special

nuclear materials (in quantities not sufficient to form a critical mass) in the State of Wisconsin, and for Wisconsin to assume the regulatory authority. Under the Agreement, a person in Wisconsin possessing these materials is exempt from certain Commission regulations. The exemptions have been previously published in the **Federal Register** and are codified in the Commission's regulations as 10 CFR part 150. The Agreement is published here as required by Section 274e of the Act.

**FOR FURTHER INFORMATION CONTACT:**

Lloyd A. Bolling, Office of State and Tribal Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone (301) 415-2327 or e-mail [lab@nrc.gov](mailto:lab@nrc.gov).

The draft Agreement was published in the **Federal Register** for comment once a week for four consecutive weeks (see, e.g. 68 FR 17090, April 8, 2003) as required by the Act. The public comment period ended on May 8, 2003. A total of two comment letters were received and were considered by the NRC staff. After considering the comments, the request for an Agreement by the Governor of Wisconsin, the supporting documentation submitted with the request for an Agreement, and its interactions with the staff of the Wisconsin Department of Health and Family Services, Division of Public Health, the NRC staff completed an assessment of the Wisconsin program. Based on the staff's assessment, the Commission determined on June 30, 2003, that the proposed Wisconsin program for the control of radiation hazards is adequate to protect public health and safety, and that it is compatible with the Commission's program.
