

SCHEDULE RI-A -- CHANGES IN EQUITY CAPITAL

General Instructions

On the FFIEC 034, this schedule is to be completed for the report period ending December 31. On the FFIEC 031, 032, and 033, this schedule is to be completed quarterly.

Total equity capital includes perpetual preferred stock, common stock, surplus, undivided profits and capital reserves, net unrealized holding gains (losses) on available-for-sale securities, and accumulated net gains (losses) on cash flow hedges, (and, on the FFIEC 031, cumulative foreign currency translation adjustments). All amounts in Schedule RI-A, other than those reported in items 1, 3, and 13 (items 1, 3, and 14 on the FFIEC 031), should represent net aggregate changes for the calendar year-to-date. Enclose all net decreases and losses (net reductions in equity capital) in parentheses.

Refer to the Glossary entry for "business combinations" for further information on purchase acquisitions.

If the bank has been acquired in a transaction accounted for using push down accounting, report in this item the initial increase or decrease in equity capital that results from the application of push down accounting, i.e., the difference between the bank's total equity capital as of the end of the previous calendar year and its restated equity capital after the push down adjusting entries have been recorded as of the acquisition date. For further information on push down accounting, refer to the Glossary entry for "business combinations."

10 **Corrections of material accounting errors from prior years.** Report the sum of all corrections, net of applicable income taxes, resulting from material accounting errors which were made in prior years' Reports of Condition and Income and *not* corrected by the filing of an amended report for the period in which the error was made.
