

AFFIDAVIT IN SUPPORT OF SEARCH WARRANT

I, Charles B. Wickersham, being duly sworn, depose and say:

I have been a Postal Inspector of the United States Postal Inspection Service (USPIS) for approximately twenty months. I am authorized to investigate crimes involving violations of Title 18 U.S.C. Sections 2332(a), 1114, and 1512(a)(2).

This affidavit is respectfully submitted in support of an application for warrants to search the following premises and vehicles, pursuant to the domestic terrorism search warrant provision found at Rule 41(b)(3) of the Federal Rules of Criminal Procedure, in that it involves threats to witnesses in, and obstruction of, a domestic terrorism investigation, pending in the District of Columbia.

- (1) A warrant to search wall locker number 55, located in Room 127, Building 1412, United States Army Medical Research Institute of Infectious Diseases (USAMRIID), Fort Detrick, Maryland. Wall locker number 55 is labeled "Bruce Ivins", and is secured by a combination lock.
- (2) A warrant to search wall locker number 10, located in Room B301, Building 1425, USAMRIID, Fort Detrick, Maryland. Wall locker number 10 is labeled "Bruce Ivins X34927", and is secured by a combination lock.
- (3) A warrant to search the office area of Dr. Bruce Edwards Ivins, office number 19, located in Building 1425, USAMRIID, Fort Detrick, Maryland.
- (4) A warrant to search Dr. Bruce Edwards Ivins's laboratory space in Room B303, B313 and B505, Building 1425, USAMRIID, Fort Detrick, Maryland.

As discussed below, there is probable cause to believe that a search of the aforementioned premises may result in the collection of evidence relevant to an ongoing criminal investigation into the dissemination of a Weapon of Mass Destruction (anthrax) through the U.S. mail system in September 2001 and October 2001 in violation of Title 18, United States Code, Sections 2332(a) and 1114, which killed five people and infected at least 17 others, and into tampering with a witness or informant in connection with that ongoing domestic terrorism investigation, in violation of Title 18, United States Code Section 1512(a)(2).

Overview

The Federal Bureau of Investigation and the U.S. Postal Inspection Service (hereinafter "Task Force") investigation of the anthrax attacks has led to the identification of Dr. Bruce Edward Ivins, an anthrax researcher at the U.S. Army Medical Research Institute for Infectious Diseases, Fort Detrick, MD (hereinafter "USAMRIID"), as a person necessitating further investigation for several reasons: (1) At the time of the attacks, he was the custodian of a large flask of highly purified anthrax spores that possess certain genetic mutations identical to the

anthrax used in the attacks; (2) Ivins has been unable to give investigators an adequate explanation for his late night laboratory work hours around the time of both anthrax mailings; (3) Ivins has claimed that he was suffering serious mental health issues in the months preceding the attacks, and told a coworker that he had "incredible paranoid, delusional thoughts at times" and feared that he might not be able to control his behavior; (4) Ivins is believed to have submitted false samples of anthrax from his lab to the FBI for forensic analysis in order to mislead investigators; (5) at the time of the attacks, Ivins was under pressure at work to assist a private company that had lost its FDA approval to produce an anthrax vaccine the Army needed for U.S. troops, and which Ivins believed was essential for the anthrax program at USAMRIID; and (6) Ivins sent an email to a friend in [REDACTED] a few days before the anthrax attacks warning her that "Bin Laden terrorists for sure have anthrax and sarin gas" and have "just decreed death to all Jews and all Americans," language similar to the anthrax letters warning "WE HAVE THIS ANTHRAX ... DEATH TO AMERICA ... DEATH TO ISRAEL." In his affidavit dated October 31, 2007, submitted in support of an initial search of the residence and vehicles of Bruce Edwards Ivins, Supervisory Postal Inspector Thomas F. Delafera described in greater detail information regarding Bruce Edwards Ivins, and his probable connection to the anthrax mailings. I hereby incorporate this affidavit by reference herein. See Exhibit A.

Factual Background

Over the course of the past few years, Dr. Ivins has become aware that the Task Force considers him a person who warrants further investigation in connection with the anthrax attacks. He has been interviewed a number of times by law enforcement throughout the course of the nearly seven-year investigation, most recently in the presence of his attorney on June 9, 2008. In addition, on November 1, 2007, Task Force agents executed search warrants at his residence, his office at USAMRIID, and his vehicles, for evidence linking him to the anthrax attacks, and seized a number of items, including numerous letters to members of Congress and the media, along with handguns. Finally, in recent months in particular, he has told co-workers and friends that he is a suspect in the investigation, even revealing to one friend a few weeks ago that his attorney has told him to prepare to be indicted for the anthrax attacks.

His most recent statement regarding the attacks came two days ago on Wednesday, July 9, 2008. While at a group therapy session in Frederick, Maryland, he revealed to the Licensed Clinical Social Worker and other members of the group that he was a suspect in this investigation. He stated that he was a suspect in the anthrax investigation and that he was angry at the investigators, the government, and the system in general. He said he was not going to face the death penalty, but instead had a plan to kill co-workers and other individuals who had wronged him. He said he had a bullet-proof vest, and a list of co-workers, and added that he was going to obtain a Glock firearm from his son within the next day, because federal agents are watching him and he could not obtain a weapon on his own. Based on these statements, the Social Worker called the Frederick, Maryland, police department, and they took custody of Bruce Edwards Ivins on Thursday, July 10, 2008, for a forensic evaluation at Frederick Memorial Hospital, where he remains as of this writing.

Further, with respect to backyard at the residence, at approximately 10:30 p.m., in early June 2008, Bruce Edwards Ivins was observed walking in the rain out into an area of his backyard near his back fence. He was then observed making a raking or digging motion in that area. Subsequent visual scrutiny of that area revealed that it was an untended area of grass and other vegetation.

Finally, with respect to the three vehicles, over the course of the past several months, visual surveillance has been conducted regularly at the residence of Bruce Edwards Ivins at [REDACTED], Frederick, Maryland. Such surveillance has revealed that all three vehicles are regularly parked in front of the Ivins residence or in the driveway on the property.

The Task Force submits that a search Subject Residence and Subject Vehicles may reveal physical or documentary evidence that will assist the investigation into these threats to witnesses related to the anthrax investigation, and obstruction of that investigation. The search is for firearms and other weapons, ballistics vests or other protective gear, and any writings identifying a plan to kill witnesses or names of intended victims, or any other relevant documents, notes, photographs, and records in various formats, including computer files and other electronic media, as more fully described in the Attachment to this affidavit.

Conclusion

Based on the foregoing, I submit that there is probable cause to believe that a search of the Subject Offices and Wall Lockers may result in collection of evidence relevant to the investigation of threats to witnesses in, and obstruction of, the investigation into the dissemination of a weapon of mass destruction (anthrax) through the U.S. mail system in September and October 2001 in violation of 18 U.S.C., Sections 1512(a)(2), 2332a and 1114. Specifically, there is probable cause to believe that a search of the Subject Residence and Subject Vehicles as described in the Attachment to this affidavit, may reveal firearms and other weapons, ballistics vests, and writings identifying a plan to kill witnesses, names of intended victims, photographs, and other relevant documents.

Because this affidavit is part of an ongoing investigation that would be jeopardized by premature disclosure of information, I further request that this Affidavit, the accompanying Order, and other related documents be filed under seal until further order of the Court.

The statements contained in this Affidavit are based in part on information provided by FBI Special Agents and U.S. Postal Inspectors, on observations made by law enforcement agents, and on my experience and background as a Postal Inspector. I have not included each and every fact known to me concerning this investigation. I have set forth only the facts that I believe are necessary to establish the necessary foundation for the search warrant.
