

National Credit Union Administration Strategy for Executive Order 13360

/s/

Designated Senior-level Official - Michael J. Kole, Director
Division of Procurement & Facilities Management

Agency Strategy:

The National Credit Union Administration is committed to providing opportunities for service-disabled veteran businesses. To meet this goal, the agency will ensure that the procurement staff will actively seek and encourage the participation by service-disabled veteran businesses in competitions for agency contracts in the following ways:

- Partner with larger agencies such as GPO and encourage their use of service-disabled veteran businesses.
- Post our agency policy on our web site and re-state it in appropriate RFP's and RFQ's.
- Make use of GSA Schedules and contracts reserved for service-disabled veteran businesses.
- Require those who contract on our behalf to seek out service-disabled veteran businesses.

The information concerning procurements with service-disabled veteran businesses will be maintained in the Procurement Office and will be reported annually as requested.
