

Incidents and Offenses

The Uniform Crime Reporting Program collects data about both single-bias and multiple-bias hate crimes. For each offense type reported, law enforcement must indicate at least one bias motivation. A single-bias incident is defined as an incident in which one or more offense types are motivated by the same bias. A multiple-bias incident is defined as an incident in which more than one offense type occurs and at least two offense types are motivated by different biases.

- There were 7,621 single-bias incidents that involved 8,999 offenses, 9,527 victims, and 6,962 offenders.
- The 3 multiple-bias incidents reported in 2007 involved 7 offenses, 8 victims, and 3 known offenders. (See Tables 1 and 12.)
