Payroll Office Letter**

**Number: P-99-23**

**Date: October 26, 1999**

**Subject: Modernizing Today –Issue Three**

OPM's Retirement Systems Modernization effort is making significant progress. Two of the prototypes, the Benefits Calculator a new tool that will calculate various kinds of CSRS or FERS benefits and the Benefits Booklet, are in use. This is made possible through the hard work of our Stakeholder group including the Agency Advisory Committee and the consistent communication and feedback we have received from the payroll offices. We want your continued feedback and we have enclosed the third volume of the bulletin **Modernizing Today**.

Your answers on the feedback portion of **Modernizing Today** are greatly appreciated. If you have any questions, or to request copies, please contact the Retirement and Insurance Service's Business Systems Reengineering Division on (202) 606-0607.
