NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission, new, revision, or extension: Revision.

2. The title of the information collection: DOE/NRC Form 741, Nuclear Material Transaction Report and NUREG/BR–0006, Instructions for Completing Nuclear Material Transaction Reports.

3. The form number if applicable: DOE/NRC Form 741.

4. How often the collection is required: As occasioned by special nuclear material or source material transfers, receipts or inventory changes that meet certain criteria. Licensees range from not submitting any forms to submitting over 5,000 forms in a year.

5. Who will be required or asked to report: Persons licensed to process specified quantities of special nuclear material or source material, and licensees of facilities on the U.S. eligible list who have been notified in writing by the Commission that they are subject to Part 75.

6. An estimate of the number of annual responses: 36,500 (14,600 NRC licensees and 21,900 Agreement State licensees).

7. The estimated number of annual respondents: 400 (160 NRC licensees and 240 Agreement State licensees).

8. An estimate of the total number of hours needed annually to complete the requirement or request: 45,625 hours (18,250 NRC licensees and 27,375 Agreement State licensees).

9. An indication of whether Section 3507(d), Public Law 104–13 applies: N/A.

10. Abstract: NRC and Agreement State licensees are required to make inventory and accounting reports on DOE/NRC Form 741 for certain source or special nuclear material, or for transfer or receipt of 1 kilogram or more of source material. The use of DOE/NRC Form 740M, and 741, together with NUREG/BR–0006, the instructions for completing the forms, enables NRC to collect, retrieve, analyze as necessary, and submit the data to IAEA to fulfill its reporting responsibilities.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O–1 F21, Rockville, MD 20852. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by September 11, 2003. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot

be given to comments received after this date. Bryon Allen, Office of Information and Regulatory Affairs (3150–0003), NEOB–10202, Office of Management and Budget, Washington, DC 20503.

**OFFICE OF PERSONNEL

**Federal Prevailing Rate Advisory
Committee; Open Committee Meetings**

According to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on—

Thursday, August 21, 2003,
Thursday, September 18, 2003,
Thursday, October 2, 2003.

The meetings will start at 10 a.m. and will be held in Room 5A06A, Office of Personnel Management Building, 1900 E Street, NW., Washington, DC.

The Federal Prevailing Rate Advisory Committee is composed of a Chair, five representatives from labor unions holding exclusive bargaining rights for Federal blue-collar employees, and five representatives from Federal agencies. Entitlement to membership on the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the Prevailing Rate System and other matters pertinent to establishing prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the Office of Personnel Management.

This scheduled meeting will start in open session with both labor and management representatives attending. During the meeting either the labor members or the management members may caucus separately with the Chair to devise strategy and formulate positions. Premature disclosure of the matters discussed in these caucuses would unacceptably impair the ability of the Committee to reach a consensus on the

matters being considered and would disrupt substantially the disposition of its business. Therefore, these caucuses will be closed to the public because of a determination made by the Director of the Office of Personnel Management under the provisions of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C. 552b(c)(9)(B). These caucuses may, depending on the issues involved, constitute a substantial portion of a meeting.

Annually, the Chair compiles a report of pay issues discussed and concluded recommendations. These reports are available to the public, upon written request to the Committee's Secretary.

The public is invited to submit material in writing to the Chair on Federal Wage System pay matters felt to be deserving of the Committee's attention. Additional information on this meeting may be obtained by contacting the Committee's Secretary, Office of Personnel Management, Federal Prevailing Rate Advisory Committee, Room 5538, 1900 E Street, NW., Washington, DC 20415 (202) 606-1500.

Dated: August 4, 2003.

Advisory Committee.*

I. Executive Summary

The Department of Commerce Demonstration Project utilizes many features similar to those implemented by the National Institute of Standards and Technology (NIST) Demonstration Project in 1988. The key features of the project involve increased delegation of authority and accountability to line managers, simplified classification and broad banding, pay for performance, hiring and pay-setting flexibilities, and modified reduction-in-force procedures. The DoC project is designed to test whether the innovations of the NIST project, which is now a permanent system, can be successful in other DoC environments. The participating organizations include the Technology Administration, the Bureau of Economic Analysis, the Institute for Telecommunication Sciences, and three units of the National Oceanic and
