[Docket No. MC2004-1; Order No. 1392]

Experimental Mail Classification Case

AGENCY: Postal Rate Commission.

ACTION: Notice and order on new experimental docket.

SUMMARY: This document provides notice of a Postal Service request for several changes affecting Periodicals mailers. It also addresses related preliminary procedural matters, including authorization of settlement discussions. Publication of this notice will allow interested parties to determine their position on the Postal Service's request.

DATES:

1. March 17, 2004: deadline for intervention.

Regulatory History

See 67 FR 62993 (October 9, 2002).

On February 25, 2004, the United States Postal Service filed a request seeking a recommended decision from the Postal Rate Commission approving an experimental mail classification, along with related discounts, for certain high-editorial, heavy-weight, small-circulation Periodicals mail that is co-palletized and dropshipped.¹ The Request further proposes a modification to the expiration date of the Periodicals co-palletization dropship discounts experiment recommended in Docket No. MC2002-3 such that the expiration date for that experiment and the recommended expiration date for the instant request for experiment expire on the same date. The Request also includes a request for a minor classification change to Domestic Mail Classification Schedule (DMCS) § 511, which proposes to allow sample copies of periodicals to be mailed with parcels using Parcel Post or Bound Printed Matter rates. This request is unrelated to the request for experiment. The Request, which includes six attachments, was filed pursuant to chapter 36 of the Postal Reorganization Act, 39 U.S.C. 3601 *et seq.*²

In contemporaneous filings, the Service asks for waiver of certain standard filing requirements (if the Commission deems such waiver is required),³ and seeks expedited consideration of its proposal, including establishment of procedures for settlement.⁴ The Service's request for expedition is in addition to that generally available under the Commission's experimental rules (39
