OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 900

RIN 3206-AH70

Intergovernmental Personnel Act Programs; Standards for a Merit System of Personnel Administration

AGENCY: Office of Personnel Management.

ACTION: Proposed rule.

SUMMARY: The Office of Personnel Management is revising the regulations on the Standards for a Merit System of Personnel Administration. The revision reflects changes and revisions in laws or regulations that require State and local governments to establish and maintain merit systems of personnel administration. Specifically, the revised regulations eliminate any implied individual right of appeal to OPM, eliminate obsolete references to the Federal Personnel Manual, and provide a current list of covered programs.

DATES: Comments must be received on or before March 5, 1997.

ADDRESSES: Send or deliver written comments to Carol J. Okin, Associate Director, Office of Merit Systems Oversight and Effectiveness, Office of Personnel Management, Room 7470, 1900 E Street NW., Washington, DC 20415-0001.

FOR FURTHER INFORMATION CONTACT: Gary L. Smith, 202-606-2980, FAX 202-606-2663.

SUPPLEMENTARY INFORMATION: Section 900.606 of Subpart F, Standards for a Merit System of Personnel Administration, provided for publication of procedures implementing merit requirements in the Federal Personnel Manual (FPM). No procedures were ever issued under the FPM system which was abolished December 31, 1993. The section was unnecessary and is being withdrawn to be consistent with the sunset of the FPM. Appendix A is being revised to reflect changes in laws and regulations

that have occurred since 1983 when the list of pertinent laws and regulations was last revised.

Our 1983 revisions to these regulations promoted flexibility and innovation at the State and local levels by eliminating standardized, detailed requirements. These new revisions continue that emphasis, and are consistent with the Intergovernmental Personnel Act's requirement to minimize Federal intervention in State and local government personnel administration. Consequently, we are modifying regulations at 5 CFR 900.604(b)(3) that require the Chief Executive to resolve compliance issues "to the satisfaction of the Office of Personnel Management." We are doing this for two reasons. First, OPM has no independent authority to adjudicate individual complaints. The Act restricts OPM from exercising "authority, direction or control over the selection, assignment, advancement, retention, compensation, or other personnel action with respect to any individual State or local employee." Second, the respective statutes which require State or local governments to establish merit systems do so pursuant to proper and efficient grants administration. We believe that issues of merit systems compliance should be raised and addressed in the context of State or local government performance in grants administration, and that this is appropriately done by or under the direction of the Federal grantor agency. Therefore, OPM's policy will be to accept allegations of non-compliance with the standards only from grantor agencies. As required by the Act, OPM will continue to provide, when requested, interpretation, advice, and technical assistance when such issues arise.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because it imposes no new requirements on State or local governments.

Airworthiness Directives; Bombardier Model CL-600-2B19 (Regional Jet Series 100) Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the supersedure of an existing airworthiness directive (AD), applicable to certain Bombardier Model CL-600-2B19 (Regional Jet Series 100) series airplanes. That AD currently requires revisions to the Airplane Flight Manual (AFM) to advise the flight crew of the need to perform daily checks to verify proper operation of the elevator control system, and to restrict altitude and airspeed operations under certain conditions. That AD also requires removal of all elevator flutter dampers. That AD was prompted by reports that the installation of certain shear pins may jam or restrict movement of the elevator. The actions specified by that AD are intended to prevent such jamming or restricting movement of the elevator and the resultant adverse effect on the controllability of the airplane. This new proposed action would add inspections of certain airplanes to detect deformation or discrepancies of the flutter damper hinge fittings and lug of the horizontal stabilizer, the elevator hinge/damper fitting, and the shear pin lugs; and require replacement of discrepant parts with serviceable parts. This proposed action also would require installation of new elevator flutter dampers, and replacement of shear pins and shear links with new, improved pins and links.

DATES: Comments must be received by March 14, 1997.
