

Need Help?

Mike's staff is always willing to help as you work with the federal government. Caseworkers in each of the four district offices are available to provide you with direct assistance in dealing with a number federal agencies and departments, including the Social Security Administration, the IRS, the Veterans' Administration, Medicare, the military, visa and passport offices, immigration, disability and federal employment offices. Please understand that while caseworkers can assist you by bringing your case to the attention of the proper officials and guiding you through the process, they cannot direct an agency to decide a matter in your favor.

If you would like Mike's office to help resolve your problem, please print and sign the Privacy Release Form, then mail it along with a description of your problem and copies of any supplemental materials. Please send the signed release form and any relevant documents to the appropriate office:
