

CHECK LIST FOR THOSE WHO HAVE HAD, OR WHO IN THE FUTURE HAVE, ONE ABNORMAL BeLPT

_____ Fill out the EE-1 and EE-3 and include a copy of any abnormal BeLPT results that you have; review the EE-7 form.

_____ Make a copy of the completed forms (one to keep for yourself).

_____ Take the original copy of your forms (or mail them) to your nearest EEOICPA Resource Center.

If you have already filed these forms, please do not fill them out again, just skip to the next item, below.

_____ After you are accepted into the DOL program, choose a clinical center where you want to have your medical examinations. Circle the center you choose.

_____ Call the clinical center where you want your medical examinations to be performed. ["I have an abnormal beryllium blood test and I need to get an appointment for a follow-up medical examination."] The clinical center will probably want to know if you had one or two abnormal tests.

_____ If you have to travel more than 200 miles round-trip, DOL will reimburse you for your travel expenses, but you will need special approval from your DOL claims examiner in the EEOICP District Office prior to travel. Call your DOL claims examiner if you need help with travel to the medical examination.

_____ If you have any further questions on the DOL program, please call the DOL claims examiner or the local DOL Resource Center.
