

BUYING MEDICINE FROM OUTSIDE THE U.S. IS **RISKY** BUSINESS

Think it's safe buying
medicine from outside
the United States?
Think again.

If you buy foreign medicine from an Internet site, from a storefront business that offers to order medicine for you, or during visits outside of the United States, you are taking a risk. This medicine may be fake, have the wrong ingredient, or have no medicine at all – and could be dangerous to your health.
