Appendix
Notes Regarding Tables I and II

Table I and Table II- Pertaining to October 2002 Council

Note 1: Table I- was run on 9/16/02. Only applications assigned to a program by that date were included. (7 applications had not been assigned at that time.). Applications that had been withdrawn by that date were excluded. For Table II, only applications that had been assigned to a program, reviewed, and percentiled by that time were included. (4 applications did not meet these criteria.)

Note 2: Table I - Research Program Grant applications shown in the first line include R01, P01 (program projects), R15 (Academic Research Enhancement Awards) and R21 (Planning Grant) awards. Small grant applications (R03) are shown separately on the following line. Contracts are not included. Costs shown are the first year total direct costs requested. Facilities and Administrative costs are not included.

Note 3: Data include applications to be reviewed by Council, applications considered not competitive and applications requesting \$50,000 or less.

Note 4: The data may include competing supplements to existing grants. These supplements are counted as separate applications except in the Center line.

Note 5: Table II- R15 and R21 applications are not percentiled. Applications in response to RFAs are not percentiled. That is why the "number reviewed" in Table II is less than the corresponding number of applications in line 1 of Table I. The data in Table II do not include R03 applications.
