Subject: Deny DNC request to violate the law

I agree with the American Conservative Union and Common Cause in objecting to a request that the Democrat National Committee (DNC) submitted to the Federal Election Commission (FEC).

Information the DNC provided to the FEC indicates that the DNC money problem existed as of Aug. 31 - well-before the terror-acts of Sept. 11th.

ACU Chairman David Keene: "The fact is that the DNC's own records filed with the Commission indicate the existence of fundraising problems before the Sept. 11th attacks. For the DNC to make the claim that our national tragedy had anything to do with their request to subvert the law, is nonsense. The hypocrisy of the Democrat National Committee on the issue of soft money has brought ACU and Common Cause together for the first time. Our two organizations stand together in protesting the DNC's bogus request and the FEC's failure to comply with standard procedure".

I request that the FEC enforce the laws on the books! Do not let the DNC use the attacks on our nation as an excuse to subvert campaign finance laws.

Thank you for your cooperation.

Sincerely
Michelle Alley
