SOAPP-CT.25

- Developed by Electric Power Research Institute (EPRI)
- Primary use: Conceptual design of industrial gas turbine applications with/without HRSG
- Provides baseline comparison in the form of avoided cost
- Data libraries: Gas turbines, HRSG
- CHP applications: Process steam
- Analysis duration/time step: up to 40 years; up to monthly
- Economic analyses: cash flow, payback, NPV, IRR
- Cost: \$7,500 (http://www.soapp.com/soapp/dg/)
- No free trial or demo versions

Input to SOAPP-CT.25 Is Through On-Screen Windows

X
