

require about 10 years to complete and would be an expensive alternative.

The alternative technologies that could create additional storage capacity involve additional fuel handling with an attendant opportunity for a fuel handling accident, involve higher cumulative dose to workers affecting the fuel transfers, require additional security measures that are significantly more expensive, and would not result in a significant improvement in environmental impacts compared to the proposed reracking modifications.

Reduction of Spent Fuel Generation

Generally, improved usage of the fuel and/or operation at a reduced power level would be an alternative that would decrease the amount of fuel being stored in the SFPs and thus, increase the amount of time before the maximum storage capacities of the SFPs are reached. With extended burnup of fuel assemblies, the fuel cycle would be extended and fewer off-loads would be necessary. This is not an alternative for resolving the loss of full core off-load capability that will occur as a result of the Kewaunee refueling outage scheduled for the Fall 2001, because the spent fuel to be transferred to the pool for storage has almost completed its operating history in the core. In addition, operating the plant at a reduced power level would not make effective use of available resources and would cause unnecessary economic hardship on the licensee and its customers. Therefore, reducing the amount of spent fuel generated by increasing burnup further or reducing power is not considered a practical alternative.

The No-Action Alternative

Also, the NRC staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no significant change in current environmental impacts. The environmental impacts of the proposed action and the alternative actions are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for Kewaunee.

Agencies and Persons Contacted

In accordance with its stated policy, on October 12, 2000, the NRC staff consulted with the Wisconsin State official, S. Jenkins of the Wisconsin Public Service Commission, regarding the environmental impact of the

proposed action. The state official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated November 18, 1999, as supplemented by letter dated August 7, 2000, which are available for public inspection at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room).

Dated at Rockville, Maryland, this 30th day of November, 2000.

OFFICE OF PERSONNEL MANAGEMENT

Privacy Act of 1974; Computer Matching Program Between the Office of Personnel Management and the Social Security Administration

AGENCY: Office of Personnel Management (OPM).

ACTION: Notice of a computer matching program between the OPM and the Social Security Administration (SSA) for public comment.

SUMMARY: OPM is publishing notice of its computer matching program with SSA to meet the reporting and publication requirements of Public Law 100-503, the Computer Matching and Privacy Protection Act of 1988. In this match, SSA records are used in redetermining and recomputing certain annuitants' benefits where computations are based, in part, on military service performed after December 1956 under the Civil Service Retirement System (CSRS) and for annuitants under the Federal Employees' Retirement System (FERS) who have a CSRS component in their FERS annuity computation. The purpose of this match is to identify these beneficiaries.

DATES: This matching program will become effective in November 2000, or 40 days after the agreements by the parties participating in the match have been submitted to Congress and the Office of Management and Budget (OMB), unless either the Congress or OMB objects thereto. Any public comment on this matching program must be submitted on or before January 8, 2001.

ADDRESSES: Any interested party may submit written comments to William J. Washington, Acting Assistant Director for Systems, Finance and Administration, Retirement and Insurance Service, Office of Personnel Management, 1900 E Street NW., Room 4312, Washington, DC 20415.

FOR FURTHER INFORMATION CONTACT: Marc Flaster, (202) 606-2115.

SUPPLEMENTARY INFORMATION: OPM and SSA have concluded an agreement to conduct a computer matching program between the two agencies. The purpose of the agreement is to establish the conditions under which SSA agrees to the disclosure of Social Security benefit and/or tax information to OPM. OPM, as specified in 5 U.S.C. 8332(j)(1), has an obligation to use post 1956 earnings data in redetermining and recomputing annuities for certain CSRS and FERS annuitants. Section 1106 of the Social

Security Act (42 U.S.C. 1306) requires that SSA disclose the needed data to OPM.

In this match, SSA records are used in redetermining and recomputing certain annuitants' benefits where computations are based, in part, on military service performed after December 1956 under the Civil Service Retirement System (CSRS) and for annuitants under the Federal Employees' Retirement System (FERS) who have a CSRS component in their FERS annuity calculation. The purpose of this match is to identify these beneficiaries.

C. Authority for Conducting the Match Program
