

entitle participants to become parties to the proceeding to which the supplement to the GEIS relates. Notice of opportunity for a hearing regarding the renewal application was the subject of the aforementioned **Federal Register** notice (71 FR 15220). Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

At the conclusion of the scoping process, the NRC will prepare a concise summary of the determination and conclusions reached, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process. The summary will also be available for inspection in ADAMS at <http://adamswebsearch.nrc.gov/dologin.htm>. The staff will then prepare and issue for comment the draft supplement to the GEIS, which will be the subject of separate notices and separate public meetings. Copies will be available for public inspection at the above-mentioned addresses, and one copy per request will be provided free of charge. After receipt and consideration of the comments, the NRC will prepare a final supplement to the GEIS, which will also be available for public inspection.

Information about the proposed action, the supplement to the GEIS, and the scoping process may be obtained from Mr. Emch at the aforementioned telephone number or e-mail address.

Dated at Rockville, Maryland, this 12th day of April 2006.

For the Nuclear Regulatory Commission.

Rani Franovich,

*Branch Chief, Environmental Branch B,
Division of License Renewal, Office of Nuclear
Reactor Regulation.*

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Technical Specification Improvement To Revise Diesel Fuel Oil Testing Program Using the Consolidated Line Item Improvement Process

AGENCY: Nuclear Regulatory
Commission.

ACTION: Notice of availability.

SUMMARY: Notice is hereby given that the staff of the Nuclear Regulatory Commission (NRC) has prepared a model Application related to changes to the Diesel Fuel Oil Testing Programs. The changes relocate references to specific American Society for Testing and Materials (ASTM) standards for fuel oil testing to licensee-controlled

documents and adds alternate criteria to the "clear and bright" acceptance test for new fuel oil. The NRC staff has also prepared a model safety evaluation (SE) and no significant hazards consideration (NSHC) determination relating to this matter. The purpose of these models is to permit the NRC to efficiently process amendments that propose to adopt the associated changes into plant-specific technical specifications (TS). Licensees of nuclear power reactors to which the models apply could request amendments confirming the applicability of the SE and NSHC determination to their reactors.

DATES: The NRC staff issued a **Federal Register** Notice (71 FR 9179, February 22, 2006) that provided a model SE and a model NSHC determination relating to changes to the Diesel Fuel Oil Testing Programs. The NRC staff hereby announces that the model SE and NSHC determination may be referenced in plant-specific applications to adopt the changes. The staff has posted a model application on the NRC Web site to assist licensees in using the consolidated line item improvement process (CLIIP) to revise TS Diesel Fuel Oil Testing Programs. The NRC staff can most efficiently consider applications based upon the model application if the application is submitted within one year of this **Federal Register** Notice.

FOR FURTHER INFORMATION CONTACT:

Peter C. Hearn, Mail Stop: O12H2,
Division of Inspection and Regional
Support, Office of Nuclear Reactor
Regulation, U.S. Nuclear Regulatory
Commission, Washington, DC 20555-
0001, telephone 301-415-1189.

SUPPLEMENTARY INFORMATION: Regulatory Issue Summary 2000-06, "Consolidated Line Item Improvement Process for Adopting Standard Technical Specification Changes for Power Reactors," was issued on March 20, 2000. The CLIIP includes an opportunity for the public to comment on proposed changes to operating licenses, including the technical specifications (TS), after a preliminary assessment by the NRC staff and a finding that the change will likely be offered for adoption by licensees. The CLIIP directs the NRC staff to evaluate any comments received for a proposed generic change to operating licenses and to either reconsider the change or to proceed with announcing the availability of the change for proposed adoption by licensees. Those licensees opting to apply for the subject change to operating licenses are responsible for reviewing the NRC staff's evaluation, referencing the applicable technical justifications, and providing any

necessary plant-specific information. Each amendment application made in response to the notice of availability will be processed and noticed in accordance with applicable rules and NRC procedures. This notice involves changes to the Diesel Fuel Oil Testing Programs.

Applicability: This proposed change to the standard technical specifications (STS) was submitted by the Technical Specifications Task Force (TSTF) in TSTF-374, "Revision to TS 5.5.13 and Associated TS Bases for Diesel Fuel Oil," and is applicable to all nuclear power reactors.

This proposal to modify technical specification requirements by the adoption of TSTF-374 is applicable to all licensees of Combustion Engineering, Babcock & Wilcox, Westinghouse Pressurized Water Reactors, and General Electric Boiling Water Reactors who have adopted or will adopt in conjunction with the change, technical specification requirements for a Bases control program consistent with the TS Bases Control Program described in Section 5.5 of the STS. Licensees that have not adopted requirements for a Bases control program by converting to the improved STS or by other means, are requested to include the requirements for a Bases control program consistent with the STS in their application for the change. The need for a Bases control program stems from the need for adequate regulatory control of some key elements of the proposal that are contained in the Bases upon adoption of TSTF-374. The staff is requesting that the Bases changes be included with the proposed license amendments consistent with the Bases in TSTF-374. To ensure that the overall change, including the Bases, includes appropriate regulatory controls, the staff plans to condition the issuance of each license amendment on the licensee's incorporation of the changes into the Bases document and on requiring the licensee to control the changes in accordance with the Bases Control Program.

To efficiently process the incoming license amendment applications, the NRC staff requests that each license applying for the changes addressed in TSTF-374 use the CLIIP to submit an application that adheres to the following model. Any deviations from the model application should be explained in the licensee's submittal.

The CLIIP does not prevent licensees from requesting an alternate approach or proposing changes other than those proposed in TSTF-374. Variations from the approach recommended in this notice may, however, require additional

review by the NRC staff and may increase the time and resources needed for the review. Significant variations from the approach, or inclusion of additional changes to the license, will result in staff rejection of the submittal. Instead, licensees desiring significant variations and/or additional changes should submit a LAR that does not claim to adopt TSTF-374.

Public Notices: In a **Federal Register** Notice dated February 22, 2006 (71 FRN 9179), the NRC staff requested comment on the use of the CLIP to process requests to adopt the TSTF-374 changes. In addition, there have been multiple notices published for plant-specific amendment requests to adopt changes similar to those described in this notice.

The NRC staff's model SE and model application may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records are accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Library component on the NRC Web site, (the Electronic Reading Room).

The NRC staff received no responses following the notice published February 22, 2006 (71 FRN 9179), soliciting comments on the model SE and NSHC determination related to the TSTF-374 changes. The NRC staff finds that the previously published models remain appropriate references and has chosen not to republish the model SE and model NSHC determination in this notice. As described in the model application prepared by the NRC staff, licensees may reference in their plant-specific applications to adopt the TSTF-374 changes, the model SE, NSHC determination, and environmental assessment previously published in the **Federal Register** (71 FRN 9179); February 22, 2006).

Dated at Rockville, Maryland, this 14th day of April 2006.

For the Nuclear Regulatory Commission.

Thomas H. Boyce,

*Chief, Technical Specifications Branch,
Division of Inspection and Regional Support,
Office of Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

OFFICE OF PERSONNEL MANAGEMENT

Submission for OMB Review; Comment Request for Review of a Revised Information Collection; RI 25- 7

AGENCY: Office of Personnel
Management.

ACTION: Notice

SUMMARY: In accordance with the paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) has submitted to the Office of Management and Budget (OMB) a request for review of a revised information collection. RI 25-7, Martial Status Certification Survey, is used to determine whether windows, widowers, and former spouses receiving survivor annuities from OPM have remarried before reaching age 55 and, thus, are no longer eligible for benefits.

Approximately 2,500 RI 25-7 forms are completed annually. The form takes approximately 15 minutes to complete. The annual estimated burden in 625 hours.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606-8358, FAX (202) 418-3251 or via e-mail to mbtoomey@opm.gov. Please include a mailing address with your request.

Dates: Comments on this proposal should be received within 30 calendar days from the date of this publication.

Addresses: Send or deliver comments to—Pamela S. Israel, Chief, Operations Support Group, Retirement Services Program, Center for Retirement and Insurance Services, U.S. Office of Personnel Management, 1900 E Street, NW., Room 3349, Washington, DC 20415; and

Brenda Aguilar, OPM Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, NW., Room 10235, Washington, DC 20503.

OFFICE OF PERSONNEL MANAGEMENT

Submission for OMB Review; Request for Review of a Revised Information Collection; RI 38-107

AGENCY: Office of Personnel
Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) has submitted to the Office of Management and Budget (OMB) a request for review of a revised information collection. RI 38-107, Verification of Who is Getting Payments, is designed for use when OPM, for any reason, must verify that the entitled person is indeed receiving the monies payable. Failure to collect this information would cause OPM to pay monies absent the assurance of a correct payee.

We estimate 25,400 RI 38-107 forms are completed annually. Each form takes approximately 10 minutes to complete. The annual estimated burden is 4,234 hours.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606-8358, FAX (202) 418-3251 or via e-mail to MaryBeth.Smith-Toomey@opm.gov. Please include a mailing address with your request.

DATES: Comments on this proposal should be received within 30 calendar days from the date of this publication.

ADDRESSES: Send or deliver comments to—Pamela S. Israel, Chief, Operations Support Group, Center for Retirement and Insurance Service, U.S. Office of Personnel Management, 1900 E Street, NW., Room 3349, Washington, DC 20415-3540; and Rachel Potter/Brenda Aguilar, OPM Desk Officer, Office of Information & Regulatory Affairs, Office of Management and Budget, New Executive Office Building, NW., Room 10235, Washington, DC 20503.
