Re: Docket 2005P-0411

Dear Sir or Madam:

I have been taking bio-identical hormones for approximately seven years. These are a tremendous comfort to me as they alleviate my symptoms of menopause.

I consult with my physician, who prescribes bio-identical hormones specifically for me, and my pharmacist prepares them pursuant to my doctor's prescription. Without this medication the quality of my life would be significantly decreased.

The benefit of BHRT is that it is designed specifically for me, and I am concerned that Wyeth Pharmaceuticals' petition (Docket No. 2005P-0411) would limit the ability of my physician and the pharmacist to keep prescribing and preparing these individualized doses for me. After careful consideration, I am convinced that the Food and Drug Administration should reject Wyeth Pharmaceuticals' petition.

Sincerely,

Sabrina Gaston
