## 2007 Annual Employee Survey Results National Transportation Safety Board All Respondents

1. Interpretation of Results: NTSB employees continue to participate in large numbers in surveys to assess the leadership and management practices that contribute to Agency performance and employee satisfaction. We registered a response rate of over 60\% for both surveys.

| Instrument | Surveys | Responses | \% |
| :---: | :--- | :--- | :--- |
| 2007 Annual Employee Survey | 377 | 260 | $69 \%$ |
| 2006 Federal Human Capital Survey | 375 | 235 | $63 \%$ |
| 2004 Federal Human Capital Survey | 398 | 280 | $70 \%$ |

In 2007, we collected demographic data on our participants: 75\% of our respondents work in our Headquarters Office and 25\% of the respondents work in our Regional Office.

Overall, in 2007 the responses were very favorable in the areas of: personal work experiences, recruitment/development/retention. Strong positive responses were received to the questions that relate to cooperation, personal accomplishment, knowledge and skills of the workforce, relationship of work to agency's goals and priorities, importance of the work and protection from health and safety hazards on the job.

The Agency has taken steps to keep staff well informed of NTSB policy and activities, to encourage communication within the NTSB and make information more accessible. Sixty-two percent of the employees believe that managers are communicating the goals and priorities of the organization and $58 \%$ are satisfied with the information that is received about what's going on in the organization. Responses in both areas reflect a positive trend over the responses in 2006.

The contributions of NTSB employees are important and their participation in this process is appreciated. The results will be used to identify and help define future program and policy improvements for the agency. We believe strongly that the responses that we received from our employees are valuable in helping to identify strengths and weaknesses. Through this process we strive to be one of the Best Workplaces in the Federal Government.
2. How the survey was conducted: The survey was conducted online from November 20, 2007 to December 21, 2007.
3. Description of sample: All 377 full-time permanent employees of the agency were surveyed.
4. Survey items and response choices: See the tables on the following pages.
5. Number of employees surveyed and number who responded: Of the 377 employees surveyed, 260 responded, for a 69\% response rate.
