RE: Notification of Nutritional Support Statements

Dear Sir or Ma'am:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Coral Calcium / Magnesium dietary supplement. Source Naturals® is the manufacturer of Coral Calcium / Magnesium.

Statements being made in the labeling of Coral Calcium / Magnesium:

- (1) Source Naturals Coral Calcium / Magnesium contains a higher level of magnesium than the original Coral Calcium to provide the important alkaline minerals, calcium and magnesium, in a 2:1 ratio, as well as other trace minerals.
- (2) An initial study on an alkaline mineral blend demonstrated an increase in blood alkalinity (pH) and buffering capacity.
- (3) Proper alkalinity (pH) of the blood is critical for the overall health of the body.
- (4) Source Naturals Coral Calcium / Magnesium is eco-friendly: it is harvested in Okinawa, Japan from fossilized (dead) coral and is not harmful to living coral.

To the best of my knowledge and belief, and based upon information available at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

  
Ira L. Goldberg  
President, Source Naturals®
