How to Put the "Whoopee" Back Into "Making Whoopee"

Dear friend,

If you'd like to put the "Whoopee" back into "Making Whoopee" - to recharge the intense sexual desire and performance you had when you were younger - here's an exciting opportunity for you to try WhoopeeCaps™.

The powerful, all-natural ingredients found in WhoopeeCaps™ are proven to help overcome the leading causes of sexual frustration and promote virility. Libido. Male potency that tends to decrease with age.

Here's what researchers have learned:

○ **Damiana** has historically been used as an aphrodisiac, and modern science now knows why: A recent study found it improved sexual performance and acted as a sexual stimulant.¹

○ **Tribulus terrestris** has been clinically proven to

improve sexual desire and enhance the male sexual mechanism.² How? By elevating your testosterone level. Some European studies suggest that tribulus can increase testosterone levels from 30% up to even 50%.

○ **L-Arginine** is the latest breakthrough in male sexual enhancement. An essential amino acid, it has the unique ability to synthesize nitric oxide - the subject of the 1998 Nobel Prize for Physiology. In essence, nitric oxide is the "key" to male sexual performance. It regulates blood flow to the genital area and transmits cellular-level sexual signals.³

○ **Ginkgo biloba** helps keep your blood flowing for optimal performance. In a study at the University of California, ginkgo helped increase sexual drive in 76% of men. It had a positive effect on all four phases of the sexual response cycle, from desire to resolution.⁴

Friendly, knowledgeable customer service is a top priority at Tabak's Health Products.

Each of these key ingredients plays an important role in sexual drive and performance. But together, they work even more effectively!

Proper Dosage

Take 2 capsules each day with food. You can take one in the morning and one at night, or you can take both together. It's up to you. Taken as directed, WhoopeeCaps™ can enhance your feelings of intimacy and improve your love life.

WhoopeeCaps™ is not formulated to be taken just prior to sexual activity. Instead, it works best when taken every day. Please remain patient, as you will begin to notice its benefits as you take it regularly.
