Re: Notification for Statement on Dietary Supplement Labels

Dear Sir/Madam,

This notification is being submitted on behalf of Functional Integrated Therapies, L.L.C., Graham, Washington, a distributor of dietary supplement products (hereafter "Functional").

Pursuant to the requirements of Section 6 of the Dietary Supplement Health and Education Act of 1994, 21 U.S.C. § 343(r)(6), and in accordance with the authorized provisions of 21 CFR § 343 (r)(6)(A), for its dietary supplements as follows:

1. DIM-PRO™ PLUS with Glycine — Supporting healthy enhanced estrogen metabolism for men and women. DIM-PRO™ PLUS nutritionally supports the activity of enzymes that metabolize estrogen and aspirin. Current research suggests diindolylmethane increases levels of good estrogens (2-hydroxyestrogens) while reducing levels of "bad" estrogens (16-hydroxyestrogens).

2. ULTRA EPA/DHA Plus Natural Vitamin E — Nutritional support for maintaining healthy prostaglandin balance. Each natural fish oil capsule provides 500mg of omega-3 lipids with 25 IU of natural vitamin E to help improve the dietary balance of omega-3 oils.

The undersigned certifies on behalf of Functional that the information presented and contained in this correspondence is complete and accurate.

Sincerely yours,
Functional Integrated Therapies, L.L.C.
