Re: 21 U.S.C. Section 343(r)(6),
Notification of Statements on Dietary Supplements

Dear Sir/Madam:

Pursuant to the requirements of Section 6 of the Dietary Supplement Health and Education Act of 1994, 21 U.S.C. §343(r)(6), and in accordance with the provisions of 21 CFR §101.93(a), your Agency is hereby notified that Nutrivation Nutritional Programs has made statements of nutritional support for its dietary supplement(s) as follows:

Product Name

Label Statements

Nutrivation Nutritional Programs Green Tea Extract

Ephedra-Free Thermogenesis

Nutrivation Nutritional Programs Green Tea Extract

Nutrivation's Green Tea Extract has a controlled dosage of Polyphenols enhanced with 50 mg of quercetin, an important bioflavonoid, further enhancing the formula's thermogenic effects. One great benefit of this standardized 90 mg of catechin in this green tea extract is its ability to stimulate thermogenesis without the associated increase in heart rate. Green tea extract is known as an all-natural fat burner, meaning it can increase fat oxidation while sparing lean muscle mass in all body types. Additionally, the polyphenol epigallocatechin gallate (EGCG), which is found in green tea, is recognized as a powerful antioxidant, among other health benefits.
