To: Tommy Thompson
Secretary of Health + Human Services

Dear Sir:

I am grateful that the FDA now requires the trans fat grams to be listed on labels.

But there definitely needs to be information on the percent that number of grams is of a day's worth! I am highly educated and nutrition + health has been my "hobby" for many years, and I need that information on the label in order to help choose what to buy + eat. I think it is a hugely important, ~~relative~~ piece of information - Please include what percentage the amount of trans fat ^{+ saturated fat} in the food is of a daily diet on the label!

Sincerely,

Elyse Klingener D.M.D.
