Re: 21 U.S.C. Section 343(r)(6), Notification of Statements on Dietary Supplements

Dear Sir/Madam:

I hereby notify the Food and Drug Administration ("FDA") of the use of statements of nutritional support in the labeling of Alfalfa Leaf Caps, a dietary supplement.

Statements being made in the labeling of Organic Alfalfa Leaf, 400 mg Caps

(1) Alfalfa (*Medicago sativa*) is a perennial herb that is indigenous to the Middle East. Because of its deep root system, Alfalfa is better able to absorb minerals from the soil than other plants. Therefore, Alfalfa is a rich source of vitamins and minerals, as well as chlorophyll. NOW Alfalfa Leaf Caps contain only organic Alfalfa, so it contains no pesticide or herbicide residues.

To the best of my knowledge, and based upon information and belief present at the time of the executing of this notice, I certify that the above information is accurate and complete. NOW Foods possesses substantiation that the statements are truthful and not misleading.
