DEFENDANTS’ COURSE OF CONDUCT

8. Since at least July 2004, Defendants Westberry Enterprises and Timothy Westberry, d/b/a Road To Healing, have engaged in the advertising, promotion, offering for sale, sale, and distribution of herbal products that purportedly treat and/or cure cancer.

9. Defendants advertise and offer these products to consumers located throughout the United States, Canada, Puerto Rico, and the U.K. through their Internet website, www.roadtohealing.com. Orders are received via email or through Defendants’ toll-free telephone number (888-589-HERB).

10. Defendants’ principal product is Native Herbal Tea Rene Caisse’s Original Formula, a/k/a Essiac Tea (“Native Herbal Tea”). This raw tea contains a mix of four herbs - Burdock Root (*Arctium lappa*), Sheep Sorrel (*Rumex Acetosella*), Slippery Elm Bark (*Ulmus Fulva*), and Turkish Rhubarb Root (*Rheum Palmatum*). Native Herbal Tea is promoted as a treatment or cure for many kinds of cancer including bladder, bone, brain, breast, cervical, colon, esophagus, kidney, liver, lung, mouth, ovarian, pancreatic, prostate, rectal, skin, stomach, testicular, throat, thyroid, tongue, and uterine cancers. Defendants’ website claims that Native

Herbal Tea “is nothing short of a miracle,” and guarantees you will see results “even a complete recovery of the illness that you suffer with.” Consumers are instructed to drink Native Herbal Tea on an empty stomach twice daily. The typical cost to consumers for the Native Herbal Tea product is approximately \$25.00 a month, plus shipping and handling fees.

11. Defendants advertise and sell a number of additional products that purportedly complement the Native Herbal Tea and assist in fighting cancer. Cats Claw (capsules) (*Uncaria tomentosa*), also known by its Spanish name *Uña de Gato*, is sold by Defendants for approximately \$24.00 a month, plus shipping and handling fees. Defendants claim that Cats Claw prevents the development and growth of malignant cells in cancer. Defendants contend Chloro Plasma helps reduce cancerous tumors. Red Clover Plus (capsules), which contains cascara sagrada bark and a “proprietary blend” of 13 other ingredients including red clover, sheep sorrel, barberry, echinacea, licorice, and devil’s claw extract, is sold for approximately \$20.00 a month, plus shipping and handling fees. metatags are used by search engines to index websites for the purpose of comparing sites to an Internet user's search request. Thus, a consumer using these or similar search terms would be more likely to locate the Defendants' website.

14. On August 27, 2007, an FTC Advisory Letter was emailed to the Defendants’ website advising them that health-related claims, like those made about cancer on the website, must be supported by competent and reliable scientific evidence and that it is against the law: (1) to make health claims without scientific support; (2) to exaggerate the benefits of products or services; or (3) to misstate the level of scientific support for claims made. The Advisory Letter also informed Defendants that:

If your website makes express claims (literally made in the ad) or claims by implication (made indirectly or by inference) about the benefits of any cancer-related products or services that are not substantiated by competent and reliable scientific evidence, or are otherwise deceptive or fraudulent, you must stop making those claims immediately.

15. On September 27, 2007, in response to a request from Defendant Timothy Westberry for further assistance in understanding his legal requirements, the FTC sent him an additional email. This correspondence listed specific cancer-related claims, made for each of the five products (including many of the specific claims cited above), that are believed to be without the support of competent and reliable scientific evidence. In addition, Mr. Westberry was sent three press releases that described previous FTC lawsuits against companies making false and/or unsubstantiated health-related claims for a variety of products, including similar cancer treatment and/or cure claims for essiac tea and cats claw.

Our mission is to share an herbal product that has been used by our family and friends with great results for several years. The Native Herbal Tea is made from four herbs that are all natural and grown organically with no pesticides and no chemicals. Taking care of our body and building our health should be top priority in our life. These herbs are God's natural medicine that will heal from the inside out by building the blood and immune system "**life is in the blood**" (Lev. 17:11).

The Native Herbal Tea is a wonderful product. We cannot guarantee it will work for you, however the tea has worked miracles for many people just like you. It is not anything new but has been used for many years and was passed down by an Ojibwa Indian Medicine man. This Herbal Tea is an effective herbal remedy for many ailments. The main ingredient, **Burdock Root**, is known to specifically help neutralize toxins in the blood. It also stimulates liver secretions thus helping the liver eliminate toxic compound build ups. It strengthens the liver and other vital organs with necessary nutrients. For instance, Burdock Root is high in Chromium, Iron, Magnesium, Silicon, and Thiamine and contains many other ingredients such as Niacin, Riboflavin, Vitamin A and Vitamin C to name a few. This is an important difference between chemical drug therapy (allopathic medicine) and natural medicine. The chemical drugs and symptom therapies that are traditionally prescribed by main street medicine provide the body with no nutrients to help the body's own immune system fight whatever ailment you have.

ROAD TO HEALING (AN I KIM OH) 25 MILLION VOTES

CANCERS (ALL KINDS) & TUMORS

!!! Cancer !!!

Read The Facts

Why Hasn't Rene Cassie's Cancer Treatment Story Been Told???

For more than 50 years people from all over the world went to Ontario, Canada for cancer treatment with a simple herbal formula that gave miraculous results.

Why has this important news failed to reach millions of vitally interested people? The story of the **Native Herbal Tea** (Rene Caisse's Original ESSIAC Formula) should be part and parcel of the natural healing lore of North America.

Instead it is virtually unknown today despite the fact that it performed so well against thousands of cases of terminal cancer that it came within only three votes of being legalized by the Canadian parliament.

Still, chances are you have never heard of it.

"In the beginning, a simple herbal recipe was freely shared by an Ojibwa Indian Medicine man who understood that the blessings of the Creator belong to all." He gave his Indian formula to a lady that had breast cancer and taught her how to use and grow the herbs to make the tea that cured her cancer. Some 30 years later she met Canadian Nurse Rene Caisse, who was dedicated to saving lives, and shared this formula from the Indian Medicine man and Rene treated thousands of people, mostly free of charge. From this knowledge many people recovered from cancer by using this wonderful formula.

Testimony:

Brenda J. from Louisiana was diagnosed with cervical cancer and her blood count was down to 9. The doctor said she needed a blood transfusion, but she started drinking the Native herbal Tea and in a week's time of, 2 ozs, 3 times a day of this wonderful herbal tea, her blood count went up to 27. She overcame cancer and is still cancer free today Brenda J. (LA)

So many terminally ill patients became well again that public pressure forced the Canadian Parliament to react in 1939. There were 55,000 votes to legalize this famous herbal tea but the Medical Monopoly pulled out all stops, yet the **Native Herbal Tea** (Rene Caisse's Original ESSIAC Formula) came within only three votes of becoming a legal therapy for cancer. The Medical establishment won the war of

politics and propaganda -but helped lose the war on cancer.

Dr. Charles Bruschi of the famed Bruschi Clinic in Cambridge, Massachusetts (physician to John F. Kennedy) - not only tested ESSIAC on human patients, but proved its value against his own cancer. He cured himself of stomach cancer with the **Native Herbal Tea** (Rene Caisse's Original ESSIAC Formula). He continued proclaiming its great value as long as he lived.

Testimony:

Randy from Texas was diagnosed with Lung cancer Oct. 2004 and the doctor gave him some radiation, but he was still in much pain and sick. He began taking the Native Herbal Tea in Nov. 2004. He drank it 3 or 4 times a day and did not miss a dose, even when he went camping he took his jug of herbal tea with him. He soon began feeling better. His doctor at M.D. Anderson in Houston, Texas said his tumor was shrinking and his blood count was great. He has gone back to work and is in no pain, thanks to the Native Herbal Tea.

The knowledge of this Herbal Formula has been almost lost through the years because Rene Caisse's records were destroyed and the Medical and Professional establishments do not recognize the value of natural organic plants that can treat the body as God intended in the beginning. In **(Rev. 22:2)** says the leaves of the tree were for the healing of the nations. When God gave us our beautiful world he made a way to stay healthy and alive with his blessings of good health.

A Free radical scavenger (antioxidant) which destroys substances that causes disease, tumors, aging and mutation in the body. Melatonin increases the body's antibody response to infections and helps regulate the body's defense systems. In vitro studies show it prolongs life and youthfulness and reverses or delays age-related debility and disease. It helps and treats many forms of cancer, especially breast cancer, prostate cancer and melanoma. Some studies and trials have shown it can improve the survival time and quality of life of patients with untreatable cancer. Additionally studies show it fights depression and stress, increases vigor and reduces anxiety and panic disorders, helps with migraine headaches and helps eliminate jet lag symptoms. It also helps Parkinson's and Alzheimer's patients. It provides deep sleep without impairing daytime alertness. Scientifically it has proven to benefit the brain during both the awake and sleep time.

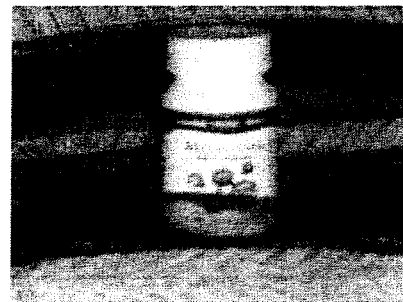

Do you find it hard to go to sleep at night? Or perhaps you sleep---but do it lightly---never going into the deepest and refreshing part known as the Rem period.

Do the dreary dark days of winter make you depressed? When you travel from one time zone to another, does your body's "clock" have a hard time resetting because of the time difference? This condition is known as jet lag.

Never fear Melatonin is here. We are proud to offer to this remarkable and effective product. It comes in a small, convenient tablet which dissolves easily under the tongue for faster and maximum absorption.

People who get the proper amount and kind of rest on a regular basis are healthier and do not age as quickly as those who miss out. Maybe this is why melatonin is said to help slow the aging process. Another reason may be that melatonin has been found to act as an antioxidant. Antioxidants help scavenge free radicals, dangerous molecules which contribute to the aging and disease processes by damaging healthy cells. Melatonin is also said to stimulate the production of brown adipose tissue which is responsible for increasing the body's metabolism. This may assist those wishing to shed unwanted pounds.

Melatonin is produced in the body by the pineal gland in the brain. Tryptophan, an amino acid found in food, is taken in by the body and made into serotonin, a neurotransmitter (conductor of nerve signals). The pineal gland takes the serotonin and makes it into melatonin, but only during the night. (The enzymes in the brain which change serotonin into melatonin are inactivated by light). Norepinephrine is another neurotransmitter which assists in melatonin production. It acts as a catalyst to melatonin production by stimulating cells in the pineal gland to begin making

RENE CAISSE'S ORIGINAL TEA STORY

RENE CAISSE'S ORIGINAL TEA STORY HERBAL TEA CANCER TREATMENT

Rene Caisse's Herbal Tea is a rather famous combination of 4 herbs which has been **proven to 'treat' all forms of cancer**. She called the name of her tea "**Essiac**" which is her name spelled backwards.

Rene was a Canadian nurse who discovered a native Indian remedy to treat cancer. She modified the formula and successfully helped save many lives. She obtained the Native Herbal tea recipe from a lady who used the Native Herbal tea 30 years before, and as a result was completely healed of breast cancer. The lady had been treated by a native Indian medicine man who taught her how to grow and make the formula. In many cases of painful diseases, like cancer and others, by drinking the tea on a regular basis, took away all the pain and kept the patients more comfortable. Rene Caisse, being a nurse, began using the herbal tea to treat many cases of terminal illnesses. She treated over 40,000 people with remarkable results.

The Canadian lawmakers & officials in the medical community attempted to censor both her work and her product in the '30s and in the '70s. Rene silently went on helping save people, many times free of charge, (including her aunt with inoperable stomach cancer and liver complications who survived with no recurrence). She continued her work in spite of the fact that there was a constant threat of imprisonment for over 50 years.

Rene's Herbal Tea is made up of 4 herbs; a combination of Burdock Root. (Articum lappa); Sheep Sorrel (Rumex Acetosella); Slippery Elm Bark (Ulmus Fulva); and Turkish Rhubarb Root (Rheum Palmatum). It is an effective herbal remedy for many ailments. Alterative (blood purifying), Hepatic (detoxify and cleanse the liver), and Demulcent (soothes irritations and inflammations). The main ingredient, Burdock Root, is known to specifically help neutralize toxins in the blood. It also stimulates liver secretions thus helping the liver eliminate toxic compound build ups. It strengthens the liver and other vital organs with necessary nutrients. For instance, Burdock Root is high in Chromium, Iron, Magnesium, Silicon, and Thiamine and contains many other ingredients such as Niacin, Riboflavin, Vitamin A and Vitamin C to name a few. This is an important difference between chemical drug therapy (allopathic medicine) and natural medicine. The chemical drugs and symptom therapies that are traditionally prescribed by main street medicine provide the body with **no** nutrients to help the body's own immune system to fight the ailment.

The Native Herbal Tea is a total body cleanse and detoxifier. This Proprietary product is especially effective in building up and strengthening the immune system. Products in the formulation have proven effective in dealing with tumors, tumorous growths, and various forms of cancer. It is also useful with lupus, diabetes and Epstein Barr.
