

Docket #00N-1396 & 00D-1598

Dear Commissioner, Feb 3, 2001.

I have a right to be an informed consumer. It is your duty to work on my behalf so that I may know whether the food I buy have been genetically modified. Therefore, as head of the FDA, you have no choice but to require that these foods be labelled and pre-market tested. Sincerely, Lorne G. Clark

00D-1598
