

2/3/01 Comments on Docket #s OOD-1598 and OON-1396

Dear Commissioners:

As I am concerned about quality of food and knowing what I, my family, and friends are eating, I urge you to require labelling and free-market safety testing of foods that can possibly have long-range and long-term detrimental effects on humans. Please help us to have freedom of choice.

Sincerely,
Gayle Laurason

OOD-1598
