RE: Notification of Nutritional Support Statements

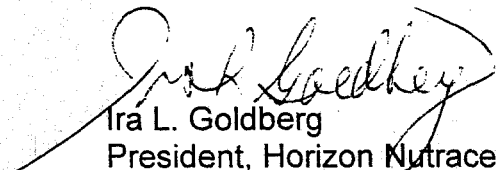

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of **Chem Guard**, a dietary supplement. Horizon® is the manufacturer of **Chem Guard**.

Statements being made in the labeling of Chem Guard:

- (1) Horizon Chem Guard is a fast acting nutritional supplement for people who are chemically sensitive. Recent scientific research indicates that molybdenum, a trace mineral that activates the enzymes aldehyde oxidase and sulfite oxidase, may provide necessary nutritional support for chemically sensitive individuals.
- (2) Glutathione (GSH) is a key element of the liver's detoxifying process, working in conjunction with glutathione peroxidase, a major free radical-scavenging enzyme.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Horizon possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
