

Docket # OOD-1598 and OON-1396

February 8, 2001

Dear Commissioner,

I'm writing to urge you to require mandatory labeling of all food that contains genetically modified ingredients. It is absurd to let the companies producing this food release it to American consumers without warning them about it. Do your job: protect the public and require mandatory labeling.

Sincerely, Jennifer Tobin
Albuquerque, N.M.

OOD-1598

C. 409
