East Hanover, NJ 07936

Re: Docket No. 01P-0245/CP1

Dear Mr. Schwede:

This responds to your citizen petition, dated May 4, 2001, requesting that the Food and Drug Administration (FDA) determine whether disulfiram 250- and 500-mg tablets were withdrawn from the market for reasons of safety or effectiveness.

The FDA has reviewed its records and has determined that disulfiram 250- and 500-mg tablets were not withdrawn from sale for reasons of safety or effectiveness. This determination allows the FDA to maintain the listing of disulfiram 250- and 500-mg tablets in the "Discontinued Drug Product List" of *Approved Drug Products with Therapeutic Equivalence Evaluations* (the Orange Book).

Enclosed is a copy of the *Federal Register* notice announcing the FDA's determination. If you need further information, please do not hesitate to call me at 301-594-2041.

Sincerely yours,

Mary Catchings
Division of Regulatory Policy I
Office of Regulatory Policy
Center for Drug Evaluation and Research

Enclosure

OIP-0245

LET 1

Dated: September 17, 2001.
 Nancy E. Cheal,
 Acting Associate Director for Policy, Planning
 and Evaluation, Centers for Disease Control
 and Prevention.

**DEPARTMENT OF HEALTH AND
 HUMAN SERVICES**

**Centers for Disease Control and
 Prevention**
 [30Day-48-01]

**Agency Forms Undergoing Paperwork
 Reduction Act Review**

The Centers for Disease Control and
 Prevention (CDC) publishes a list of
 information collection requests under
 review by the Office of Management and
 Budget (OMB) in compliance with the

Paperwork Reduction Act (44 U.S.C.
 Chapter 35). To request a copy of these
 requests, call the CDC Reports Clearance
 Officer at (404) 639-7090. Send written
 comments to CDC, Desk Officer, Human
 Resources and Housing Branch, New
 Executive Office Building, Room 10235,
 Washington, DC 20503. Written
 comments should be received within 30
 days of this notice.

Proposed Project

The National Death Index (NDI)—
 Extension—OMB No. 0920-213
 National Center for Health Statistics
 (NCHS), Centers for Disease Control and
 Prevention (CDC). The National Death
 Index (NDI) is a service of the National
 Center for Health Statistics that assists
 health and medical researchers
 determine the vital status of their study
 subjects. The NDI is a national data base
 containing identifying death record
 information submitted annually to

NCHS by all the state vital statistics
 offices, beginning with deaths in 1979.
 Searches against the NDI file provide
 the states and dates of death and the
 death certificate numbers of deceased
 study subjects. With the recent
 implementation of the NDI Plus service,
 researchers now have the option of also
 receiving cause of death information for
 deceased subjects, thus reducing the
 need to request copies of death
 certificates from the states. The NDI
 Plus option currently provides the ICD
 codes for the underlying and multiple
 causes of death for the years 1979-1999.
 The five administrative forms are
 completed by health researchers in
 government, universities, and private
 industry in order to apply for NDI
 services and to submit records of study
 subjects for computer matching against
 the NDI file. The total burdens for this
 data collection is 227 hours.

Form	Number of respondents	Number of responses/ respondents	Avg. bur- den/re- sponse (in hrs.)
Form A	50	1	2 ³⁰ / ₆₀
Form B	70	1	1 ⁴⁰ / ₆₀

 BILLING CODE 4163-18-P

**DEPARTMENT OF HEALTH AND
 HUMAN SERVICES**

Food and Drug Administration
 [Docket No. 01P-0245]

**Determination That Disulfiram Tablets,
 250 and 500 Milligrams, Were Not
 Withdrawn From Sale for Reasons of
 Safety or Effectiveness**

AGENCY: Food and Drug Administration,
 HHS.

ACTION: Notice.

SUMMARY: The Food and Drug
 Administration (FDA) has determined
 that disulfiram (Antabuse) 250- and 500-
 milligram (mg) tablets, formerly
 marketed by Wyeth Ayerst
 Pharmaceuticals (Wyeth Ayerst), were
 not withdrawn from sale for reasons of
 safety or effectiveness. This
 determination means that FDA will not

begin procedures to withdraw approval
 of abbreviated new drug applications
 (ANDAs) for disulfiram drug products,
 and it will allow FDA to continue to
 approve ANDAs for disulfiram 250- and
 500-mg tablets.

FOR FURTHER INFORMATION CONTACT:
 Mary E. Catchings, Center for Drug
 Evaluation and Research (HFD-7), Food
 and Drug Administration, 5600 Fishers
 Lane, Rockville, MD 20855, 301-594-
 2041.

SUPPLEMENTARY INFORMATION: In 1984,
 Congress enacted the Drug Price
 Competition and Patent Term
 Restoration Act of 1984 (the 1984
 amendments) (Public Law 98-417),
 which authorized the approval of
 duplicate versions of drug products
 approved under an ANDA procedure.
 ANDA sponsors must, with certain
 exceptions, show that the drug for
 which they are seeking approval
 contains the same active ingredient in
 the same strength and dosage form as
 the "listed drug," which is a drug
 selected by the agency as the reference
 standard for bioequivalence testing.
 Sponsors of ANDAs do not have to
 repeat the extensive clinical testing
 otherwise necessary to gain approval of
 a new drug application (NDA). The only

clinical data required in an ANDA are
 data to show that the drug that is the
 subject of the ANDA is bioequivalent to
 the listed drug to which the ANDA
 refers.

The 1984 amendments include what
 is now section 505(j)(7) of the Federal
 Food, Drug, and Cosmetic Act (21 U.S.C.
 355(j)(7)), which requires FDA to
 publish a list of all approved drugs.
 FDA publishes this list as part of the
 "Approved Drug Products With
 Therapeutic Equivalence Evaluations,"
 generally known as the "Orange Book."
 Under FDA regulations, drugs are
 withdrawn from the list if the agency
 withdraws or suspends approval of the
 drug's NDA or ANDA for reasons of
 safety or effectiveness, or if FDA
 determines that the listed drug was
 withdrawn from sale for reasons of
 safety or effectiveness (21 CFR 314.162).

Under § 314.161(a)(2) (21 CFR
 314.161(a)(2)), the agency must make a
 determination as to whether a listed
 drug was withdrawn from sale for
 reasons of safety or effectiveness if
 ANDAs that refer to the drug that was
 withdrawn are approved. Section
 314.161(d) provides that if FDA
 determines that the listed drug was
 removed from sale for safety or
 effectiveness reasons, the agency will

begin proceedings to withdraw approval of the ANDAs that refer to the drug that was withdrawn from sale.

On May 4, 2001, Sidmak Laboratories, Inc. (Sidmak), submitted a citizen petition (Docket No. 01P-0245/CP1) under 21 CFR 10.25(a) and 10.30 to FDA. Sidmak requested that the agency determine whether disulfiram tablets were withdrawn from the market for reasons other than safety or effectiveness. Disulfiram 250- and 500-mg tablets are the subject of approved NDA 7-883, formerly held by Wyeth Ayerst under the tradename Antabuse. In its petition, Sidmak stated that it acquired all rights to NDA 7-883 from Wyeth Ayerst in December 2000 and that "concurrent with negotiations for this sale, Wyeth Ayerst discontinued the marketing of its disulfiram product."

FDA has reviewed its records and, under § 314.161, has determined that disulfiram 250- and 500-mg tablets approved under NDA 7-883 were not withdrawn from sale for reasons of safety or effectiveness. Accordingly, the agency will maintain the listing for these products in the "Discontinued Drug Product List" section of the Orange Book. The "Discontinued Drug Product List" identifies, among other items, drug products that have been discontinued from marketing for reasons other than safety or effectiveness. The approval status of the approved ANDAs that refer to disulfiram 250- and 500-mg tablets is unaffected. Additional ANDAs for disulfiram 250- and 500-mg tablets may also be approved by the agency.

Dated: September 18, 2001.

Margaret M. Dotzel,

Associate Commissioner for Policy.

Submission for OMB Review; Comment Request; Agricultural Health Study—A Prospective Cohort Study of Cancer and Other Diseases Among Men and Women in Agriculture

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the Federal Register on June 12, 2001,

page 31679 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

PROPOSED COLLECTION: Title: Agricultural Health Study—A Prospective Cohort Study of Cancer and Other Diseases Among Men and Women in Agriculture. **Type of Information Collection Request:** Revision (OMB 0925-0406, expiration 11/30/01). **Need and Use of Information Collection:** The Agricultural Health Study is in its third year of follow-up data collection on a prospective cohort of 89,189 farmers, their spouses, and commercial applicators of pesticides from Iowa and North Carolina. Follow-up is not yet complete; an additional two years of follow-up is being requested. **Frequency of Response:** One time. **Affected Public:** Individuals or households, Farms. **Type of Respondents:** Private pesticide applicators and their spouses. The annual reporting burden is as follows: Estimated Number of Respondents: 11,000; Estimated Number of Responses per Respondent: 2; Average Burden Hours Per Response: 1,196; and Estimated Total Annual Burden Hours Requested: 13,156. The annualized cost to respondents is estimated at \$131, 554. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

REQUEST FOR COMMENTS: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

DIRECT COMMENTS TO OMB: Written comments and/or suggestions regarding

the items(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503, Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Michael C.R. Alavanja, Dr. P.H., Division of Epidemiology and Genetics, National Cancer Institute, Executive Plaza South, Suite 8000, 6120 Executive Boulevard, Rockville, MD 20852, or call non-toll free (301)435-4720, or E-mail your request, including your address to alavanjam@mail.nih.gov

COMMENTS DUE DATE: Comments regarding this information collection are best assured of having their full effect if received on or before October 26, 2001.

Dated: September 14, 2001.

Reesa Nichols,

NCI Project Clearance Liaison.
