RE: Notification of Nutritional Support Statements

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Pantethine, a dietary supplement. Source Naturals® is the manufacturer of Pantethine.

Statements being made in the labeling of Pantethine:

- (1) This precursor to coenzyme B-5 (also called coenzyme A) goes directly into your bloodstream in its active form, ready to go to work immediately. This avoids loss that may occur not only during digestion, but during the liver's conversion process as well.
- (2) Pantethine is the precursor to coenzyme A, the critical starting point in the Krebs energy production cycle.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals®
