RE: Notification of Nutritional Support Statements

Dear Sir or Madam:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Neuromins DHA, a dietary supplement. Source Naturals@ is the manufacturer of Neuromins DHA.

Statements being made in the labeling of Neuromins DHA:

- (1) Neuromins DHA is used as a dietary supplement for the brain.
- (2) Docosahexaenoic acid (DHA) is an omega-3 fatty acid which plays a significant role in cerebral development, especially during the crucial period of fetal development and infancy. Pregnant mothers transfer DHA directly to the fetus, to support brain and retina development.

To the best of my knowledge, and based upon information and belief present at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals possesses substantiation that the statements are truthful and not misleading.

Ira L. Goldberg
President, Source Naturals®
