I would ask that you please withdraw the Morning After Pill from availability due to the fact that it does not prevent abortion--it IS abortion. These pills are dangerous both to the mother and to the tiny human being growing within her. They should never be approved for use. At the moment of conception that tiny person has a soul and should be afforded all the rights of life liberty and the pursuit of happiness just like any other person in the United States of America. Thank you.

Sincerely,

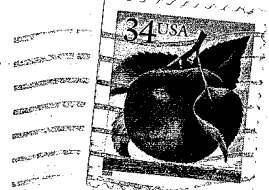

Bonnie Burgardt
