RE: Docket # OOP-1322

Gentlemen:

I am writing on behalf of my wife who suffers from an uncommon, but definitely not unique food allergy. She and a few other people we have met are extremely allergic to Garlic, Onions and all other food items in that family (shallots, scallions, leeks, chives), which are often added, in packaged foods. I would request that any proposed legislation concerning labeling, or voluntary industry standards specifically include these ingredients,

Thank you for your consideration.

Sincerely,

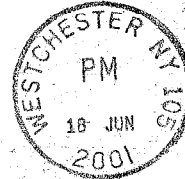

Donald B. Jacobson
