Dear Dr. Henney

0060 '01 JAN 17 110:42

Please ban the use of human antibiotics to make livestock grow faster.

The Centers for Disease Control and Prevention considers the overuse of antibiotics in animal agriculture to be the principal source of antibiotic resistance in food-borne bacteria like salmonella and campylobacter. One strain of salmonella is now resistant to FIVE antibiotics!

Urgent action, NOT MORE STUDY, is needed by the Food & Drug Administration to address this problem.

Sincerely,

Judith Stetson
