Dear Commissioner: New Proposed Regulations on GENETICALLY
 ENGINEERED FOODS 9298 '01 MAR -2 11:02

We are very concerned by the Food and Drug Adm. proposed regulations on GENETICALLY ENGINEERED foods. The agency's proposal for "Voluntary Labeling" would deprive consumers and health care professionals of critical information which may have a direct negative impact on our health and safety--not only for the present but for years to come.

There is strong scientific evidence of numerous health and environmental risks of Genetically Engineered foods. Therefore, we urge you to REQUIRE SAFETY TESTING AND MANDATORY LABELING OF ALL GENETICALLY ENGINEERED FOODS. Thank you for your serious consideration.
