Dear Commissioner,

I am concerned about the food I eat,  
in particular the shady science experiments  
relating to genetically modified foods.

We need to thoroughly test, then label  
these foods before they reach the  
marketplace, for our own safety  
and that of our environment.

Please make sure that these things  
happen so that I can exercise my  
freedom of choice. I look forward to  
hearing from you on this matter.

Yours Sincerely,

Ms. Sara Grimes
