

Dear Commissioner:

2/19/01

I am writing in reference to docket numbers
OOD-1598 and OON-1396. The FDA should
be ~~labeling~~ regulating foods to the benefit of
consumers, not promoting the interests of the food
industry. Therefore, I urge you to re-think your position
on genetically modified foods to require both pre-market
safety testing and mandatory labeling of GM foods.
If GM foods are clearly labeled, consumers can
make a free choice about what to purchase.

Thank you, Edward M. Gilliland
